TERMS OF SALES

ACCOUNT OPENING

As part of the opening of a new customer account, it will be necessary to send us proof of Company registration, a bank account number and an order with a minimum value of 5.000 € + VAT or 1,000,000 HUF with payment in advance.

DELIVERIES

Times are given as an indication, deliveries outside of these times do not entitle the buyer to cancel the order, to refuse the goods or claim damages.

FREE CARRIAGE

on all orders over 100 € or 40,000 HUF, any order lower than 100 € or 40,000 HUF + VAT will incur a carriage charge of 10 € + VAT.

PAYMENTS

A discount of 1.5% is granted for payment within eight days from the invoice date.

LATE PENALTIES

In case of non-payment to the agreed terms, our invoices will automatically begin to accumulate interest, at a rate of 1.50% per month until settlement. In addition, a fixed cost of 40 € for administration costs will be incurred.

CAPITALIZATION OF LATE PENALTIES

Overdue penalties still unpaid after a period of one year will accumulate interest at the national rate.

PENALTY CLAUSE

In the case of unpaid debts, the supplier is entitled to claim from the debtor, as a penalty clause, a lump sum compensation corresponding to 10% of the total amount of the unpaid, without formal notice in advance.

COLLECTION COSTS

Bank charges related to declined cheques will be invoiced to the debtor as well as any postage costs related to the sending of any formal notices.

CANCELLATION CLAUSE

In case of unpaid, the sale will be resolved automatically from the notice sent to the debtor.

TERMINATION CLAUSE OF THE TERM

Failure to pay a single payment will result in the immediate payment of all our receivables and the suspension of deliveries.

TITLE RETENTION CLAUSE

The supplied goods will remain our property until the full payment is received, this will allow us to recover them in case of unpaid.

RISK TRANSFER CLAUSE

Despite the existence of a retention of title clause on our goods, the buyer will bear all the risks as from the receipt of these. As a result, he must have an insurance contract in place prior to the receipt of the goods.

APPLICATIONS OF THE LEGAL GUARANTEE

The guarantee applied will be the legal guarantee at the time of the transaction, in all cases, we will not accept any repair or exchange of products under warranty unless the receipt or the duly completed and dated guarantee form is attached.

CLAIMS AND RETURNS

CLAIM

Regarding disputes arising during transport, the onus is on the addressee to raise any discrepancies and necessary reservations specifying the nature of the issues, loss, missing, damage or delay. Claims concerning the quality of the goods must be made within 48 hours with the company.

RETURN OF GOODS

All returns of goods must be subject to prior authorization from your local Rapala VMC Distributor or any other Rapala VMC affiliates. Products must be returned in their original packaging, untagged and undamaged. Rapala VMC companies reserves the right to apply a discount on returned products (a minimum of 30%).

ATTRIBUTIVE CLAUSE OF COMPETENCE

In the event of litigation, both with our suppliers and with our clients, the attribution of competence is made to the courts from our head office.

BRANDS AND LOGOS

The use of our trademarks, logos and images of our products is subject to authorization.

THE WEIGHTS, DIMENSIONS OF OUR PRODUCTS, AND THE RESISTANCE OF OUR LINES ARE INDICATIVE AND NOT CONTRACTUAL; THEY CAN NOT IN ANY CASE ENGAGE ANY RAPALA VMC COMPANY.

Rapala®

THE QUEST FOR PERFECTION, SINCE 1936

The anticipation levels soar with your new lure as you make that first cast, hoping & wishing that all of the decisions which have lead you to this point will give you the best chance of reaching your angling goals.

When you attach a Rapala lure to the end of your fishing line, you are improving your chance of your goals become reality. With Rapala, you are connecting to a piece of history; a product that has been refined and re-engineered using the experience gained from over 80 years of learning how to catch fish, in waters around the world.

The same attention to detail and tradition that you find in our lures is extended to all fishing tackle sold under the Rapala brand; from our tools & accessories, to our technical clothing and beyond.

MATERIALS AND FINISHES

BALSA WOOD

Balsa wood has always been the material of choice for Rapala's iconic lures; such as the Original Floater and CountDown – the lures that started it all. Even today, a precisely shaped and precision weighted balsa body gives the lure the most responsive and life-like action, unachievable with any other material. Balsa wood is quite unique; it is a very sustainable product thanks to its rapid growth rate, and despite being so light it is still very strong and is classified as the softest commercial hardwood – the perfect initial ingredient in creating the famous Rapala "wounded minnow" action.

ABACHI WOOD

Abachi wood is the perfect choice for Rapala when a tougher wooden lure is required. Abachi is used in the manufacture of Rapala lures such as the CountDown Magnum – lures that are designed to target big fish. Abachi offers a similar life-like, natural swimming action to balsa. The major difference between abachi and balsa is the strength and also the buoyancy; balsa has higher buoyancy and will rise faster in the water than abachi.

PLASTIC

Plastic is the great artificial material for manufacturing fishing lures, it lends itself to a variety of options for finishes and translucency. Plastic is ideal for lures that have to be very strong and durable or neutrally buoyant (suspending). Plastic lures can be built to be as noisy as a swarm of bees or as silent as a mouse. Translucent plastic can have texture on either side, allowing very realistic life-like finishes with 3D scales, lateral lines, gills and fins when combined with internal metallic or holographic finishes and external paint and print patterns.

ORIGINAL RAPALA FOIL

Rapala's original foil is the perfect all-rounder when it comes to selecting a general purpose finish to mimic natural baitfish. The original foil produces a moderate amount of flash and showcases a fantastically detailed, natural scale pattern.

PAINTED & PRINTED

Painted and printed finishes are generally found on wooden bodied lures, such as the CountDown and Original Floater. These color combinations give off a low amount of flash, and can be produced to provide either natural or high contrast attractor patterns.

HOLOGRAPHIC FOIL

The holographic foil is a signature ingredient within the X-Rap concept; it is what gives that strikeinducing flash that fish just can't resist. Holographic foils are used both internally and externally to achieve intense flash that still blends into the natural underwater environment.

METALLIC PLATING

Metallic finishes are used to imitate really shiny baitfish species and to create a lot of flash to catch the fish's attention. Combined with paint and print patterns, chrome finishes can be used to create highly detailed baitfish imitations as well as bright and flashy attractor patterns.

CUSTOM HD LIVE

Created in perfect detail, the advanced Custom HD finishes are the most life-like replicas of nature ever. The artisanal finishes are a mix of modern printing technology combined with classic Rapala foil finishes and deep knowledge on how to combine the best of both to create stunningly beautiful baitfish imitations.

GILDED FINISH

In nature, numerous baitfish open their mouth wide open when feeding, allowing their gills to reflect light in a shiny, metallic flash. The gilded finish replicates that flash with an added metallic finish on the lure's head – resulting in a polished yet life-like design.

UV BRIGHT

It is widely understood that many fish species see into the UV spectrum, which aids in hunting prey. Some of our lures are coated with UV reflective particles which greatly enhance their visibility to predatory species. UV light is invisible to most humans, so you'll just have to try a UV BRIGHT lure and experience the results first-hand.

GLOW

Glow colors reserve light energy into the coating and release it in the dark – be it because of night or deep water – to create an irresistible target for the predators.

CASTING

RAP-V BLADE

The Rap-V Blade is the perfect balance of metal, plastic and Rapala® expertise. This extremely versatile bait produces instant vibration on the lift or retrieve. The Rap-V can be worked in variable depths with a wide range of techniques; cast out, make contact with bottom, lift & let fall in a yo-yo style retrieve. For vertical presentation, drop to bottom and twitch for a jigging action. Two line tie positions; front line tie for a slower fall swimming action, rear line tie for a faster fall, head down action. The Rap-V Blade delivers the right action and attitude and is a perfect choice ofr any species of gamefish.

Metal Frame with Durable Plastic Body • Two-Hole Line Tie • Vibrating - Loud Rattle • VMC® Tail Treble and Double Belly Hooks • Freshwater Predators

PRECISION XTREME PENCIL

Precise Design – Xtreme Action! Inside the Precision Xtreme Pencil's durable and through-wired plastic body is an internal weight system that makes the lure one of the best-casting baits in its category. The internal weight doubles as the Dual Frequency Knocker: as the weight slides along the internal railing, it hits a durability-increasing plastic pillar and a stainless-steel weight in turns. This results in a sequence of high and low pitch, attracting fish from near and far! The extremely detailed Precision Xtreme Pencil features printed scales, a new 3D holographic eye, and comes in 12 fish-catching freshwater colors.

Topwater • Walk-the Dog Action • Wire-Through Construction • Dual Frequency Knocker • Ultra-Long Casting • Durable Plastic Body with Internal Pillar • Lead-Free • Textured Translucent Body with Ultra-Detailed Finishes • New 3D Holographic Eye • VMC® 7548 Black Nickel Treble Hooks

CASTING

RIPSTOP®

The RipStop® tail design creates a fast ripping, hard stopping, flashing swimbait action. Its forward motion stops on a dime, with a subtle shimmy before coming to a rest, then ever so slightly lifts its head with a super slow rise. Cast & wind, wind & stop, twitch, snap, rip and suspend, fish it your favorite way for all species of gamefish.

Durable 2-Part Plastic Integrated Lip • Dual Control System Hard Plastic Boot Tail • Fast Ripping & Hard Stopping • Multi-Species Gamefish • VMC® Black Nickel Fine Wire Hooks

CASTING

RIPSTOP® DEEP

Available in a deep diving model, the RipStop® tail design creates a fast ripping, hard stopping, flashing swimbait action. Its forward motion stops on a dime, with a subtle shimmy before coming to a rest, then ever so slightly lifts its head with a super slow rise. Cast & wind, wind & stop, twitch, snap, rip and suspend, fish it your favorite way for all species of gamefish.

Durable 2-Part Plastic Integrated Lip • Dual Control System Hard Plastic Boot Tail • Fast Ripping & Hard Stopping • Multi-Species Gamefish • VMC® Black Nickel Fine Wire Hooks

CASTING

SHADOW RAP®

Designed to perfectly mimic the last struggle of a dying minnow, the Shadow Rap® makes tight turns when twitched, turns to look back and then settles to a head down position with a quiver before starting a slow fade-away dive on the pause. Can be fished almost in place with short twitches, extending the time the lure spends on the strike zone.

Responsive, Tight-Turning Jerkbait Action • Head-Down Flickering Fade-Away on the Stop • Mimics Dying Baitfish • Internal Metallic Plating and Natural Scale Pattern • Translucent Sides with Holographic Inserts and Bone Pattern • Tungsten and Steel Weights for Perfect Balance • VMC® Black Nickel Hooks

CASTING

SHADOW RAP® DEEP

Ideal for a slow moving, yet action-packed dying minnow presentation in a little bit deeper water than the Shadow Rap®. Can be fished with little forward movement, yet a lot of side to side action. With a fast twitch followed by slack line, the Shadow Rap® Deep turns to look back almost 180 degrees before settling with a flicker to a fade away dying dive.

Responsive, Tight-Turning Jerkbait Action • Head-Down Flickering Fade-Away on the Stop • Mimics Dying Baitfish • Internal Metallic Plating and Natural Scale Pattern • Translucent Sides with Holographic Inserts and Bone Pattern • Tungsten and Steel Weights for Perfect Balance • VMC® Black Nickel Hooks

CASTING

SHADOW RAP® SHAD

Big fish can't resist the tantalizing, slow-rising action of the new Shadow Rap® Shad. Swimming with the infamous horizontal struggle with a vertical "rise" on pause, they perfectly mimic a shad in trouble. Larger profile presents more flash and the option to fish from a finesse to more aggressive retrieve. Tie one on and see what monsters are hiding in the darkness.

Textured Scale Body • Translucent & Frosted Colors • Sharp Left to Right Turns • Slow Rising on Pause • Casting • 0.9-1.2 m Depth Multi-Species Gamefish • VMC® Thin Wire Black Nickel Round Bend Hooks

CASTING

SHADOW RAP® SHAD DEEP

The Shadow Rap® Shad Deep breaks the mold. Fish it finesse in the morning when the big ones are still a little sleepy, then ramp it up all the way to an aggressive action, matching the mood of the fish. The revolutionary new "frosted" colors absorb light and minimize flash, just right for an enhanced absence of aggressiveness.

Textured Scale Body • Translucent & Frosted Colors • Sharp Left to Right Turns • Slow Rising on Pause • Casting • 1.5-1.8 m Depth Multi-Species Gamefish • VMC® Thin Wire Black Nickel Round Bend Hooks

CASTING

SHADOW RAP® FAT JACK

The long-casting Shadow Rap® Fat Jack dives fast when cranked. With a very slow rise on the pause, it perfectly imitates the fade of a dying baitfish. Designed for slow presentations with a steady retrieve and built with a subtle natural rattle created by two internal glass beads, Fat Jack will draw aggressive strikes even from the most passive fish. Detailed Shadow Rap® Series baitfish and attractor patterns help cover all fishing situations while the wire-through construction withstands even the biggest fish.

Slow Rising • Subtle Rattling with Glass Beads • Wire-through Construction • VMC® 7548 Black Nickel Hooks • Targeted for Trout, Perch and Chub

SHADOW RAP® SOLID SHAD

Aerodynamic design and balance for long and accurate casts even in the most demanding conditions. Built heavy to sink fast, the Shadow Rap® Solid Shad reaches the targeted depth quickly and stays in the strike zone on the retrieve. Hard-kicking swimming action gives a lot of side flash and tracks true even in heavy current and on fast retrieves. Natural and attractor pattern Shadow Rap finishes with internal flash foils.

Durable Plastic Body Construction • Through Wire • Hard-Kicking Action • Trout and Small Predator Species • VMC® 7548 Black Nickel Hooks

CASTING

SUPER SHADOW RAP®

Opportunistic predators can't deny the Super Shadow Rap® as it kicks hard to the side, and then slowly fades away into the depths like a dying fish. Its tall body perfectly mimics the silhouette of a big baitfish while the famous Shadow Rap® action dances the Super Shadow Rap® almost on the spot like an easy meal. Twitch it gently for on-the-spot action; or rip it hard to send it gliding into the mouth of a big fish. Fitted with VMC® Coastal Black™ hooks.

Durable 2-Part Plastic with Integrated Lip • Highly Detailed Finishes • Responsive, Tight-Turning • Large Predator Gamefish • VMC® Coastal Black™ Treble Hooks

CASTING & JIGGING

JIGGING SHADOW RAP®

Following in the footsteps of the original Rapala® Jigging Rap®, the much lighter Jigging Shadow Rap® features a slower darting action. Designed for vertical jigging, the broader silhouette, modern internal metallic finishes and belly-flashing action are ideal for targeting large wary fish, whether they are suspended or close to the bottom.

Durable Plastic Body • Leadfree • Sinking • Slow Darting Action • Targeted for Perch & Zander • VMC® Black Nickel Hooks

CASTING

X-RAP®

The X-Rap® is "all about the action." It's the perfect size, shape and 3D illusion of a minnow. Prominent scales and lateral line on the fuselage capture and flash light like a beacon. It can be fished both in an aggressive "Slashbait®" technique or with a classic Rapala wobble. The angler defines the cadence for maximum effectiveness. Small versions of the X-Rap® are ideal for targeting smaller species – or as small, snack-sized offerings for big predators that are finicky and won't bite bigger lures.

Slashbait® Action • Suspending on Pause • Textured Translucent Body • Internal Holographic Foil • Internal Long-Cast System (XR04 excluded) • 3D Holographic Eye • VMC® Black Nickel Round Bend Hooks • Flash Feather Teaser Tail • Hand-Tuned & Tank-Tested

X-RAP® COUNTDOWN®

Fish the Xtreme Attitude consistently at any depth. Based on the CountDown® method introduced by Rapala in the 1960s, the X-Rap® CountDown® brings modern X-Style finishes and details to the game. It swims with a strong rolling action and flutters down on the pause. The X-Rap® CountDown® sinks 30% faster than the classic CD. Due to its weight and body design, it is also very long casting.

Consistent Depth Control • Strong Rolling Action • Flutter Action On Drop • Sinking • X-Rap Finish • 3D Holographic Eye • VMC® Black Nickel Round Bend Hooks • Hand-Tuned & Tank-Tested

X-RAP® HAKU

Built tough for big fish, X-Rap® Haku features Rapala's proprietary 3R System Titanium Release Rig with VMC® Coastal Black hooks. When rigged for action, the hooks are positioned just like on a regular glide bait, and the rig rests in the lure's belly groove, out of the way and protected from weeds and snags. At hook-set, the hook rig will release from the body, letting the fish have no chance to breakf ree. The rig also makes removing the hooks easier the fish as the body of the lure is not in the way. X-Rap® Haku can be used for different presentations and it is super easy to use. Gliding action can be created by either twitching with the rod or by using a stop & go retrieve. 3R System 3R – Rapala® Release Rig – System is built in to lure and out of the way when rigged. Upon hook-set, the clip at the tail will release the rig from the body, allowing a direct contact to the fish and letting the fish have no chance to use the lure as leverage to break free. The durable rig is built with 100 lbs titanium wire and features a solid connector ring, heavy-duty split rings and premium VMC® Coastal Black round bend trebles.

High-impact ABS Body • 3R Release Rig System • Walk-the-dog • Glide Bait Action • Targeted for Freshwater Predators • VMC® 4551 Coastal Black 3/0 Hooks • 100 lb Titanium Wire Rig

X-RAP® PETO

The Finnish Beast, X-Rap® Peto, combines Rapala's fish-catching X-Rap® construction with a beautifully color matched soft tail to create a seamless hybrid bait. With its slow sink rate and perfectly horizontal fall, X-Rap® Peto is the ideal choice for cold water & challenging conditions. The soft tail is firmly secured to the body with a 6-point stainless plate. Spare tail included.

ABS Body with Soft PVC Tail • 6-Point Stainless Plate Tail Locking System • Wide Tail-Kicking with Body Roll • Large Predator Gamefish • VMC® Coastal Black™ Treble Hooks

X-RAP® OTUS

A formidable creature, the X-Rap® Otus, combines Rapala's fish-catching X-Rap® construction with a beautifully color matched curl tail to create a seamless hybrid bait. With its slow sink rate and wide wafting tail, X-Rap® Otus is the ideal choice for cold water & challenging conditions. The body rolls side-to-side as the enormous curl tail pulses behind when retrieved. When paused, the tail acts as a parachute, stabilizing the lure as it slowly swims into the depths. The soft tail is firmly secured to the body with a 6-point stainless plate. Spare tail included.

ABS Body with Soft PVC Tail • 6-Point Stainless Plate Tail Locking System • Wide Tail-Kicking with Body Roll • Large Predator Gamefish • VMC® Coastal Black™ Treble Hooks

CASTING & TOPWATER

X-RAP® POP

This X-Rap® brand, lure surface version, “pops” and “splashes” in a remarkable way thanks to its arched back. The concave shape of its mouth creates a string of bubbles imitating the sound of a fish hunt, when animated by dry drawing. Very easy to animate, the slightest movement gives it life. It is as effective in freshwater as in the sea, for example to fish for bass in oyster beds.

Large Concave Mouth • Sounds of splash and Pop • Floating • Long Cast • 3D Holographic Eyes • VMC® Black Nickel Hooks • Shine and feathers in teaser • X-Rap Finish

CASTING

X-RAP® TWITCHIN' SHAD

X-Rap® Twitchin' Shad is designed to perform a wide twitching walk-the-dog swimming action. Predator colors with X-Rap® attitude trigger the attack instinct in fish. Slow sinking allows a glide and drop technique that lands the Twitchin' Shad into pockets where predators love to ambush their prey.

X-style Translucent Body • 3D Holographic Eyes • Slow Sinking • Subsurface walk-the-dog • Casting • For Predators • VMC® Black Nickel Round Bend Hooks

CASTING

X-RAP® SALTWATER

Cast & twitch the X-Rap® Saltwater lure where big fish live. The classic Rapala® "wounded-minnow" wobble calls them out and the extreme, erratic Slashbait® action when twitched creates the strike. Built tough for tough conditions & hard-fighting fish.

X-Rap® Slashbait® Action • Textured Translucent Body • Internal Long-Cast Mechanism • X-Rap® Finish • 3D Holographic Eye • Suspending on Pause • VMC® Perma Steel® Hooks • Perfect Match Saltwater Patterns • Hand-Tuned & Tank-Tested

TROLLING

X-RAP® MAGNUM® XTREME

The shallow running X-Rap® Magnum® Xtreme trolls true at over 15 knots, allowing you to cover more water and trigger the speedsters of the deep. Sleek flat sides create a tight rolling action while its tail keel adds stability at all speeds. Troll the X-Rap® Magnum® Xtreme fast or slow through reef terrain or around rocky outcrops, amongst skirted lures or other Rapala lures in your spread.

High-Speed Trolling Design • Shallow Diving Lip • Magnum Durability • Textured Translucent Body • Internal Holographic Foil • X-Rap® Finish • Stabilizing Tail Keel • 3D Holographic Eye • VMC® 3X Strong Perma Steel Hooks • 3X Split Rings

CASTING

X-RAP® MAGNUM® STICK

Designed for fast and aggressive retrieves, the X-Rap® Magnum Stick 17 swims in wide S curves on the retrieve. Horizontal line tie allows for a wider swimming action. Once stopped, this lipless stick bait dives head-down with a fish-triggering flutter. Heavy-duty construction with strong through-wire withstands savage big blue water predators. Weighted for long-casts, the scalloped internal reflective construction gives life-like flash even with the slightest motion.

Magnum Durability Through-wire Construction X-Rap Finishes Textured Translucent Body • 3D Holographic Eye Saltwater Prey Patterns Long Casting Internal Holographic Foil • VMC® 7266 TI Inline Single Hooks

CASTING

X-RAP® MAGNUM® XPLODE

The over-engineered X-Rap® Magnum® Xplode combines a heavy through-wire construction with a thick-walled ABS body, giving it Rapala's Magnum level of strength to absorb the most vicious strikes. A low positioned tow point pulls the popper downwards, keeping the X-Rap® Magnum® Xplode stable in all weather conditions; while its deep cupped face generates a thunderous surface explosion with each sweep of your rod.

Through-Wire Durable ABS Body • 3D Holographic Eye & Internal Foil • Explosive & Loud All-Weather Stable • VMC® 75 Series™ 6X Tropic Spark Point

CASTING

X-RAP® MAGNUM® CAST

Built heavy and aerodynamic for extreme casting distances, Rapala X-Rap® Magnum Cast delivers even in the most demanding saltwater fishing conditions. Heavy-duty construction stands up to the strongest of saltwater beasts. Perfectly balanced swimming action for fast retrieves, it will run straight even with the fastest cast & burn presentations. Fluttering action on the drop adds lifelike flash.

Through-wire Construction • Magnum Durability • Xtreme Casting Distance • X-Rap Finishes • Saltwater Prey Patterns • 3D Holographic Eyes • Ti-coated VMC Heavy-duty Hooks

CASTING

X-RAP® MAGNUM® PREY

Built heavy and aerodynamic for extreme casting distances, Rapala X-Rap® Magnum Prey delivers even in the most demanding saltwater fishing conditions. Heavy-duty construction stands up to the strongest of saltwater beasts. Lipless design and fluttering action on the drop allow natural baitfish-imitating presentations. On fast retrieve the lure will skip on the surface like a fleeing baitfish.

Through-wire Construction • Magnum Durability • Xtreme Casting Distance • X-Rap Finishes • Saltwater Prey Patterns • 3D Holographic Eyes • Ti-coated VMC Heavy-duty Hooks

MAXRAP® WALK'N ROLL

The "do-all" topwater bait, MaxRap® Walk'N Roll spits, bobs, skitters and slides across the surface in all conditions. Developed in partnership with pro anglers fishing the Atlantic, this lure is weighted for Maximum casting distance and ultimate stability in bad weather and rough seas. Under a steady retrieve the MaxRap® Walk'N Roll spits and rolls from side-to-side; or try a twitch & pause to create a walking action. Crank it in fast to imitate a fleeing baitfish; or when at rest with your rod tip down, twitch it in place for a head-down bobbing motion. Fitted with VMC 7554 2X-Strong Ti coated inline treble hooks.

High-impact ABS Body • Long-Casting Internal Weight System • Aggressive, spitting, walk-the-dog • Saltwater Gamefish • VMC® 2X-Strong Ti Hooks

CASTING

MAXRAP® LONG RANGE MINNOW

Designed for fishing that requires ultimate casting distances in the most demanding conditions. The patented Max Cast weight transfer mechanism and aerodynamic shape of the lure guarantee that it will cast farther than any lure in its category. Ideal for fast and aggressive presentations, but also performs perfectly with slow retrieve.

Aerodynamic Shape for Optimal Casting Performance • Balanced with Tungsten Balls for Accuracy • Aerodynamic Body Shape • Internal Patented Max Cast Mechanism • Internal Holographic Foil and Natural Scale Pattern for Strong Flash • Designed for Aggressive and Fast Fishing • Strong Rolling Action • Low Resistance on the Retrieve • Responsive to Twitching • Slow Sinking on the Pause • Premium VMC® Needle Sharp In-Line Hooks

CASTING

NEW

FLASH-X DART

CAST, RETRIEVE, PAUSE, STRIKE! - The wired-through Flash-X Dart is heavily weighted to cast farther than other lures in its class. Thanks to its prismatic design, the lure sinks with a side-flashing fluttering action on the pause and remains stable when retrieved at high speed. This unique shape makes the Flash-X Dart catch and reflect light like a mirror ball, attracting fish from a wide area.

Designed for Long Casting Distance For Saltwater Predators Side-to-Side Darting Action Sinking, Flutters on the Drop Durable Wire-Through Construction • Lead-free Plastic Body with Metalized Coating for Extreme Flash Unique Prismatic Design Premium VMC® 7556 3X Ti-Coated Treble Hooks

CASTING

NEW

FLASH-X EXTREMO

Built with Rapala's MaxCast system, the wired-through Flash-X Extremo gets you closer to those distant fish. When you begin your retrieve, the MaxCast tungsten balls shift to the head, enhancing the lure's rolling (and flashy!) action. Jerk it aggressively to imitate a distressed baitfish or crank it fast with a pause in between to entice a bite.

Designed for Long Casting Distance For Saltwater Predators For FAst and Aggressive Retrives Sinking Durable Wire-Through Construction Lead-free • Plastic Body with Metalized Coating for Extreme Flash Unique Prismatic Design Premium VMC® 7554 2X Ti-Coated Treble Hooks

FLASH-X SKITTER

Built to soar and skitter, the wired-through Flash-X Skitter perfectly mimics one of the most hunted saltwater baitfish in the ocean – the needlefish. The tapered prism design creates impressive flash above and below the water while also acting as a keel to improve stability during a high-speed retrieve, keeping the head up. Crank it fast to send it skittering across the surface like an escaping fish that no predator can resist.

Designed for Long Casting Distance For Saltwater Predators For Agressive Retrieves Floating Skittering Topwater Swimming Action • Durable Wire-Through Construction Lead-free Plastic Body with Metalized Coating for Extreme Flash Unique Prismatic Design • Premium VMC® 7556 3X Ti-Coated Treble Hooks

COUNTDOWN® ELITE

NEW SIZE

NEW COLORS

The CountDown® Elite harnesses over 80 years of lure making craftmanship into a premium balsa lure. It features the legendary controlled slow-sinking method of the original CountDown®. The new CountDown® Elite is built with a modern construction for maximum casting distance and accuracy, improved durability and versatility - and a flutter on the drop. The color patterns combine metallic plating, HD printing and new designs, bringing the look to a totally new level.

Balsa body • Heavy-duty split rings • Wire-through construction • Targeted for Trout and Perch • VMC® Black Nickel hooks

CASTING & TROLLING

NEW

SHAD RAP® ELITE

Premium balsa, fish-catching action on both casting and trolling, and a natural baitfish profile – given the Elite treatment! The Shad Rap Elite builds on the well-proven qualities of the immensely popular Shad Rap® crankbait and pairs it with modern wire-through construction in the body for maximum casting distance and durability. Resembling baitfish found the world over, the responsive lure's action ranges from a wide wobble to a tight shimmy – depending on how fast you retrieve it. The Shad Rap Elite features VMC®'s 75' Series treble hooks with the extra-sharp Needle Point® designed for landing large and spirited fish.

Casting and Trolling • Floating • Balsa Body • Long-Casting • Heavy-Duty body • Wire-Through Construction • Versatile Swimming Action • Lead-Free • Hand-Tuned & Tank-Tested • VMC® 7554 2X Black Nickel Treble Hooks

CASTING & TROLLING

ORIGINAL FLOATER®

The legendary first Rapala® and still the number one "go-to" lure. Whether twitched on the top as a surface bait, retrieved as a shallow runner, weighted with a split shot for medium depths or bottom walked off a three-way swivel or bottom-bouncer, the wounded minnow action continues to be irresistible to gamefish on every continent around the world.

Balsa Construction • Natural Minnow Profile • Classic, Modern Patterns • Floating • VMC® Black Nickel Hooks • Stainless Through Wire Construction • Hand-Tuned & Tank-Tested

CASTING & TROLLING

JOINTED®

Slight exaggeration of Rapala's unique baitfish in distress action. Can be fished like the Original Floater®, top to bottom. It is the perfect choice when fish are finicky and in a negative feeding mood.

Balsa Wood Construction • Broken Back Design • Classic Minnow Profile • VMC® Black Nickel Hooks • Floating • Fished Top to Bottom • Hand-Tuned & Tank-Tested

CASTING & TROLLING

SHAD RAP®

A Rapala staple, the Shad Rap® is equally effective whether cast or trolled, and is designed to be fished from ultra-slow speeds to super-fast with superior results. First introduced in 1982, The Shad Rap® has undoubtedly accounted for a large portion of Rapala's +500 world record catches over the years.

Classic Rapala Action • Balsa Wood Construction • Diving Lip Design • Floating • Natural Baitfish Profile • VMC® Black Nickel Hooks • Hand-Tuned & Tank-Tested

SHALLOW SHAD RAP®

The Shallow Shad Rap® is ideal for fishing in shallow water. Cast it out, let it sit until the ripples fade away, then begin a slow, enticing retrieve. It is equally effective when twitching, casting or slow trolling.

Balsa Wood Construction • Shallow Running Lip Design • Classic Rapala Action • Natural Baitfish Profile • Floating • VMC® Black Nickel Hooks • Hand-Tuned & Tank-Tested

CASTING & TROLLING

DEEP TAIL DANCER®

The Deep Tail Dancer® features an enlarged, extreme diving lip that plummets the lure as deep as 12 meters unassisted. The banana-style body swims with a wide tail, dancing action that can only be created with balsa. Cast it or troll it deep for a large number of species worldwide.

Deep Diving Lip • Wide Tail Swimming Action • Balsa Wood Construction • Internal Rattle Mechanism • Floating • VMC® Black Nickel Hooks • Hand-Tuned & Tank-Tested

ULTRA LIGHT CASTING

MINI FAT RAP®

For convincing finicky fish to bite, the tight swimming action is just right. The sinking Mini Fat Rap® works with unmatchable action for attracting trout and other smaller predators.

Compact Body Design • Balsa Wood Construction • Tight Swimming Action • Shallow Running • Slow-Sinking • Hand-Tuned & Tank-Tested

CASTING & TROLLING

TEAM ESKO®

A floating lure with the body silhouette of the CountDown® for long-casting. Extreme swimming action, the Team Esko® maintains the classic Rapala® "wounded-minnow" action even in strong currents and rough water due to its additional bulk and lip design.

Balsa Wood Construction • Aerodynamic Shape • Long-Casting • Custom Lip Design • Unique Wobble Action • Premium VMC® Black Nickel Hooks • Hand-Tuned & Tank-Tested

CASTING

FLAT RAP®

Built of balsa with a slow-rising response on retrieve pause, the Flat Rap® swims with a hard-flashing modification of the classic Rapala® "wounded-minnow" action. The triangle lip assists in creating the unique, quicker flashing action while deflecting off obstacles in its way. Sticky sharp VMC® black nickel hooks. Hand-tuned and tank-tested to ensure it embodies the action Rapala® is known for.

Balsa Wood Construction • Flat Sided Hard Flashing Action • Triangle Lip Enhances Action • Long-Casting Design • Slow-Rising • VMC® Black Nickel Hooks • Hand Tuned & Tank Tested

CASTING

TWITCHIN' RAP®

A perfect combination for predator fishing: the classic Rapala® shad body design with an easy-to-use gliding action. Extremely responsive abachi construction with every lure body hand-picked to guarantee the right density and therefore the right sink rate for every lure .The wide-profile Twitchin' Rap® glides side-to-side just below the surface staying within the strike zone throughout the presentation. Twitchin' Rap® can be fished with the rod tip down, twitching the rod tip to create a walk-the-dog action, or holding the rod tip still while with a start-stop retrieve mimicking a struggling baitfish.

Abachi Body Construction • Modern Predator Color Patterns • Responsive Action • Large Predator Gamefish • VMC® Coastal Black Nickel Hooks

TROLLING

SCATTER RAP® DEEP HUSKY JERK®

Baitfish skitter and scatter when they are pursued by predators – it's this erratic and evasive action that triggers the strike. Made with a custom Scatter Lip, the Scatter Rap® Deep Husky Jerk® consistently swims with an erratic and evasive sweeping action – perfectly mimicking vulnerable baitfish. When trolled, it is the perfect choice for any species of freshwater gamefish.

Durable Plastic Construction • Built with Scatter Lip • Evasive, Erratic, Suspending, Silent Action • Trolling • Mult-Species Gamefish • VMC® Black Nickel Round Bend Hooks

TROLLING

SCATTER RAP® TAIL DANCER

A combination of the wide, tail-kicking action of the legendary Tail Dancer® and the escaping minnow action created by the Scatter Lip® creates a strong, evasive, erratic action no predator can resist. Ideal when trolling deeper areas such as drop offs and rock bars.

Classic Tail Dancer balsa body design • Built with Scatter Lip • Evasive Scatter Rap® action mimics escaping baitfish • Irregular, responsive action • Wide tail-kicking action • Internal rattle mechanism • VMC® Black Nickel hooks

CASTING & TOPWATER

BX® SKITTER FROG

NEW SIZE

Designed to be fished through heavy cover where the big ones lurk and ambush their prey, the BX® Skitter Frog will skitter and jump with a fast, steady retrieve creating a lot of splash and noise. Made with responsive balsa and surrounded by a strong copolymer shell; the BX Skitter Frog with its extra tough skin will help you land toothy predators time and time again. Up-turned, heavy-duty premium VMC® double hook and thick rubber skirt allow for snag-free presentations.

Balsa Core Copolymer Outer Shell • Floating • Jumping Frog Action • Big Splash & Commotion • VMC® 7925 Black Nickel Hooks

BX® MID BRAT

Say hello to the youngest member of the Brat Family. Like its elder siblings, the BX® Mid Brat is an ill-behaved troublemaker. With an inner core made of balsa and an armor coating of rugged copolymer, this lure has both durability and buoyancy. Made for mayhem, the BX Mid Brat is one of the toughest, fish catchin' square bills out there.

Balsa Core Copolymer Outer Shell • Modified Flat Side "V" Cut Belly • Hard Flash, Wild Tracking, Kick Outs • VMC® Black Nickel Round Bend Hooks

BX® BIG BRAT

The BX Big Brat is a bully. Like it's smaller brother it is badly behaved and always looking for a fight, the BX® Brat series is one tough cookie. Balsa inner core with an armor coating of rugged copolymer, it is the most durable, fish catchin' square bill ever.

Balsa Core Copolymer Outer Shell • Modified Flat Side "V" Cut Belly • Hard Flash, Wild Tracking, Kick Outs • Bass/Multi-Species Gamefish • VMC® Black Nickel Round Bend Hooks

BX® BIG BRAT PIKE LIMITED

Better lock your doors – there's a new Brat in town! The BX® Big Brat Pike Limited is a limited-edition addition to the well-loved BX Brat series, with pike-specific twists thrown in the mix. This wild-tracking crankbait swims with an aggressive rumble while kicking up sand all the way. The mayhem-inducing swimming action, combined with the lure's additional VMC® 7548 bladed belly hook, makes it an excellent search bait. The BX Big Brat Pike Limited's solid balsa body is coated witha tough copolymer shell, meaning you'll get the best of both worlds: the silent and exquisite swimming action of balsa and the durability of hard plastic. The BX Big Brat Pike Limited is fitted with needle-sharp VMC 7548 treble hooks and heavy-duty split rings, specifically designed of r targeting pike. Available in a well-proven color range inspried by Rapala's other pike favorites, like the Peto and the Otus.

Balsa Core Copolymer Outer Shell • Modified Flat Side "V" Cut Belly • Hard Flash, Wild Tracking, Kick Outs • VMC® 7548 BN & 7548 BN Bladed Hooks • Heavy Duty split rings

CASTING & TROLLING

BX® SWIMMER

The flat-sided BX® Swimmer features an articulated body with a double pivot joint which in combination with the responsive, solid balsa core creates a rolling, moderate swim bait action that starts on a very slow retrieve. The durable co-polymer hard shell protects the delicate balsa and allows highly detailed, life-like finishes. The BX® Swimmer is weighted to be slow sinking and balanced for long casts.

Balsa Body Inside • Durable Copolymer Shell • Molded 3D Head, Gills and Scales • Internal X-Foil • Flat-Sided with Strong Flash on Roll • VMC® Black Nickel Round Bend Hooks • Slow Sinking • Incredible Life-like Finishes • 3D Holographic Eyes • Hand-Tuned & Tank-Tested

CASTING

BX® MINNOW

With the patent pending construction combining a balsa core with a durable co-polymer outer body, the BX® Minnow features a super responsive action that comes alive with the slowest of retrieves and the most delicate twitches. Yet it can handle fast, aggressive retrieves and take a beating from toothy, strong predators. Precision weighted for perfect balance and long casting.

Balsa Body Inside • Durable Copolymer Shell • Molded 3D Head, Gills and Scales • Internal X-Foil • Flat-Sided with Strong Flash on Roll • VMC® Black Nickel Round Bend Hooks • Floating • Incredible Life-like Finishes • 3D Holographic Eyes • Hand-Tuned & Tank-Tested

NAUVO

A classic restored – the Rapala® Nauvo brings a modern update to a tried-and-trusted traditional metal spoon. Originally appearing in the 1990's, the Nauvo swims with a life-like wide tail wagging action on a steady retrieve while a faster retrieve adds irregular kicks into the action, breaking the rhythm and adding flash. The fluttering and rolling action on the drop adds additional attraction. Modern finishes combine updated traditional spoon colors and realistic HD baitfish patterns. Available in two sizes: the bigger option is perfect for targeting larger predators while the smaller all-rounder is well suited for trout and salmon.

Metal Body • Leadfree • Unique Shape • Sinking • Designed for Pike, Trout, Rainbow Trout & Salmon • VMC® Black Nickel Treble Hook

CASTING

HARMAJA

This uniquely shaped spoon from the 1990's has been brought back to life with fresh delicious finishes and the same proven fish-catching action. A Rapala® proprietary design, the offset body of the Rapala® Harmaja spoon creates an irregular swimming action with wide tail kicks and tons of flash. Its darting and rolling action on the drop guarantees attraction from the moment it hits the water and throughout the retrieve. Modern finishes combine updated traditional spoon colors and realistic HD baitfish patterns. Available in two sizes: the bigger option is perfect for targeting larger predators while the smaller all-rounder is well suited for trout and salmon.

CASTING

KALLAN

Aerodynamic in design, the Rapala® Kallan casts long and accurately, even in the most demanding of conditions. Built to perform against the strongest of winds, its lead-free body casts true. On the retrieve it swims with a lively irregular action and moderate tail kick that perfectly imitates a baitfish's movement. With perfect balance, it has an irresistible flutter on the drop. Impressive highly detailed patterns accented by 3D flash elevate this lure to a whole new level.

Metal Body • Leadfree • Unique Shape • Sinking • Designed for Pike, Trout, Rainbow Trout & Salmon • VMC® Black Nickel Treble Hook

CASTING

ULTRA LIGHT MINNOW

When the bite is tough, downsizing to a smaller presentation can often tempt shut-down predators with an easy meal. The Ultra Light Minnow acts like a big bait, but in a small weighted body. It casts incredibly far, is slow-sinking; and creates a hard-kicking action through its unique lip design.

Weighted Body • Unique Lip Design • Hard Kicking Action • Slow Sinking • External Scales • 3D Holographic Eyes • VMC® Black Nickel Round Bend Hooks • Hand-Tuned & Tank-Tested

CASTING & TOPWATER

ULTRA LIGHT POP

A small topwater lure that packs a mean pop. Custom-designed cup face to move a lot of water and create a big bubble on each twitch. Featuring a loud internal rattle for added attraction, this little popper won't go unnoticed.

Loud Topwater Popping Action • Custom Design for Giant Bubbles and Big Commotion • Loud Internal Rattle • Perfectly Balanced Body Design • 3D Holographic Eye • External Scale Pattern • VMC® Black Nickel Hooks

CASTING

RATTLIN' MINNOW SPOON®

Rattlin' Minnow Spoon® features a unique construction that combines the silhouette of a minnow with the action of a spoon. Wide, irregular sweeping action to create flash. Internal rattle chamber emits additional noise and vibration. Built with a heavy-duty single hook and a weed guard to be fished even in heavy cover. Balanced flutter on the drop with irregular kicks and strong body roll.

Wide Sweeping Action • Internal Rattle Chamber • Heavy-Duty Single VMC® Hook • Weedless Design • 3D Eyes • Metallic and Painted Finishes

CASTING

DT® (DIVES-TO) SERIES

The DT® (Dives-To) series of crankbaits, dive fast to a preset depth and stay in the "strike zone" longer than any than other crankbait on the market. Made from the top seven percent of balsa wood, this consistently perfect wood combined with carefully placed internal weights, tapered fuselage and thin tail design creates the ultimate crankbait action, found only in the DT family.

Quick-Dive Resting Position • Extra Thin Polycarbonate Lip • Perfect Balance • 3D Holographic or Painted Eyes • Long-Casting up to 45m. • Thin Tail Design • Internal Rattle Chamber • VMC® Black Nickel Hooks • Balsa Wood Construction • 3D Holographic Eyes • Hand-Tuned & Tank-Tested •

RA0121002	RCDMLSRP	17 cm	x1	022677322902

RAPALA CUSTOM DESIGN SERIES

RCD MAG SPRING SPLIT RING PLIERS

Built with two opposing magnets to hold the pliers open, the Mag Spring mechanism cannot fail, unlike conventional plier springs. The split ring nose on the 4” model opens rings from size 0 up, while the 6” pliers are ideally suited for size 3–5 rings. The cutter on both sizes cuts all line sizes. The pliers feature stainless steel jaws and co-molded grips. 6” pliers come with a molded plastic sheath.

RAPALA CUSTOM DESIGN SERIES

RCD MAG SPRING PLIERS

Rapala's proprietary Mag Spring mechanism on the pivot point of the pliers has two opposing magnets that push away from each other and hold the pliers open for easy one hand operation. Unlike springs, the magnets won't break or lose their power in use. The durable stainless steel jaws with gun metal finish have serrated tips for secure grip. Ergonomic, co-molded Soft Grip handles for comfortable hold. Patented design.

RAPALA CUSTOM DESIGN SERIES

RCD HOOK REMOVER

This one-handed, stainless steel, spring operated hook remover gives maximum hold on hooks when removing them from fish. Hook-centering groove ensures non-slip grip of your catch. The thick, forged head stays strong against the biggest of hooks and strongest fish. Its long barrel reaches deep & maintains a safe distance between you and your catch. Drainage holes help to keep it rust-free.

FLOAT TUBES

Rapala offers 5 Float Tubes of high quality and designed to provide comfort and absolute safety to fishermen. In addition, many accessories come with and others are available as an option to complement your equipment.

RECOMMENDATIONS

- In strong heat, we advise you to under-inflate the flanges of your Float Tube
- For a maximum of safety, the wearing of the lifejacket is important
- Learn about local regulations before using the Float Tube

FLOAT TUBE

FLOAT TUBE FT 160

The Rapala FT160 Float Tube is made of 0.7mm high strength PVC. This high-end model is robust and secure. Thus, it is perfect for specialist fishermen and for competition. Its implementation is fast, allowing you - even if you have only a little time - to be able to support your passion. Very well equipped, it has two independent floats of diameter 32cm, each with an inflation valve. Its seat and back are inflatable. The seat is high for maximum comfort in fishing. The inner space between the tubes is expanded for more comfort (48cm). Thanks to its two valves, it inflates and deflates easily and safely. A protective reinforcement is present under each of the flanges. It also has two removable side pockets, fasteners for 2 or 3 Velcro-adjustable rods, a security bar with graduated safety net in centimeters, two "backpack" carrying straps for easy movement and two carrying handles on the front panel to easily place the Float Tube in a car or to carry it. Tubeless (without inner tube). Delivered with:

Foot pump • Repair kit • Transport bag • Bakkan

FLOAT TUBE

FLOAT TUBE FT 150

Buit with ultra strong 0,7mm PVC, the FT150 Rapala float tube is made for the avid float tube angler looking for comfort and technical features. The inflatable seat gives additional buoyancy and a higher seated position. The 2 large pockets are big enough to each hold 2 3700-size boxes plus other tackle items. A front velcro strap let's the angler safely secure up to 4 rods. Easily removable straps allow you to comfortably transport the float tube on your back to easiliy move fishing spots. The design is tubeless so it's easy to inflate and deflate. Supplied with pump, carry bag and repar kit all included.

FLOAT TUBE

FLOAT TUBE FT 140

The Float Tube FT140 Rapala is made entirely of PVC, allowing it a better glide on the water and thus promoting its maintenance by a simple blow of sponge. Compact, with two oversized rolls, its foam seat allows the fisherman to position himself slightly above the water. Very secure, it has a stabilizer bar maintaining the spacing of the flanges while protecting the user. The FT140 is equipped with two large detachable pockets allowing you to carry a maximum of material. Confirmed fishermen will appreciate this model. Many accessories come with such as the handles at the front, the carrying straps, support of a stick by velcro, fixing eyelets ... This resistant model offers a maximum of security. Delivered with:

Foot pump • Repair kit • Transport bag • Fins • Inner tubes also available

FLOAT TUBE

FLOAT TUBE FT 120

The Rapala FT120 combines both canvas and PVC. The seat and back are made of high density foam. The main advantage of this Float Tube comes from its storage: its two side pockets are detachable, allowing the fisherman to prepare but also to store his equipment more easily. The FT120 also has a stabilizer bar that keeps the spacing of the strands while securing the user. This model is ideal for regular anglers. Delivered with:

FLOAT TUBE

FLOAT TUBE FT 100

The FT100 is the lightest in the range, ideal for beginner anglers. Its light weight makes it possible to travel light to get into the water in the most remote spots and catch fish that never see a fisherman! It has wide pockets open by a zipper along their entire length, allowing them to slide the boxes of lures very easily. A bar at the front, associated with a net, is a rigid workspace and large enough to redo the rigs, change lures and pick up the fish. At the front, there are also Velcro on the tubes to secure the canes during travel. The high-density floating foam seat and backrest make it easy to spend a day fishing as in an armchair. At the back, a net allows to evacuate the water quickly when it is necessary to leave the Float Tube of the water. It is possible to attach rod-type accessories to the side of the tubes with the rings attached to the pockets. Under the Float Tube, there are eyelets and straps that can be worn on the back, and a handle. Delivered with:

Foot pump • Repair kit • Carry bag • Fins • Inner tubes also available

SUNGLASSES

PRECISION VISION GEAR®

LENSE BASE COLORS:

GREY
Perfect for heavy lights, saltwater fishing, freshwater fishing such as in a mountain lake or sunny ice fishing.

AMBER
Perfect for freshwater as performs well even in low luminosity. Good for cloudy saltwater applications.

ANTI REFLECTIVE COATING COLORS:

BLUE MIRROR
13% transmittance. Applied on grey lenses for maximum protection.

SILVER MIRROR
15% transmittance. Applied on amber lenses.

GREEN MIRROR
15% transmittance. Applied on amber lenses.

*Transmittance is the percent of light passing through the lens

Specifically developed for all fishing purposes, our multi-layer polarized lenses reduce glare whilst enhancing contrast and colors.

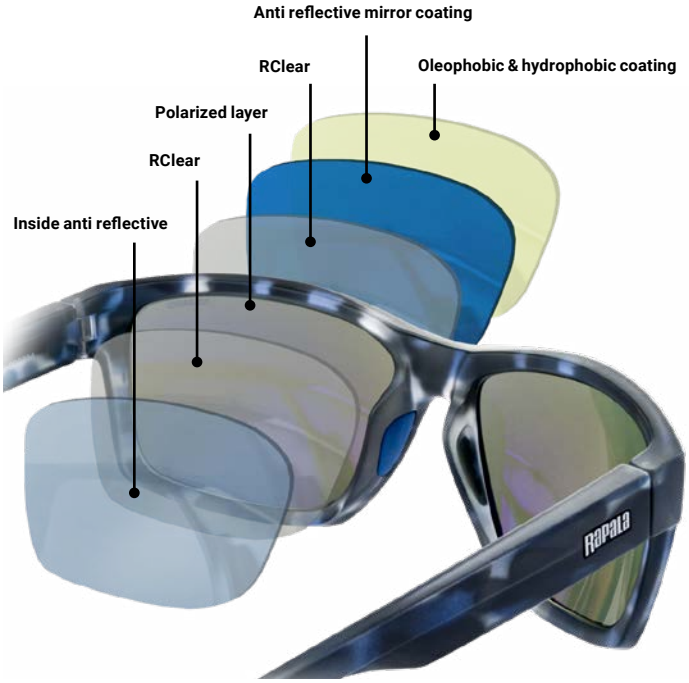
This coating is applied inside the lens to avoid any reflection entering your vision.

OLEOPHOBIC : Outside coating that repels everything that is oily: skin oil, sunscreen... Make the lens easier to clean.
HYDROPHOBIC : Outside coating that repels rain and water drops. Avoid water drop marks on the lens.

Anti slip and hypoallergic material located on nose pads and earpieces to keep your sunglasses secured in place.

100% UVA and UVB Absorption.

This unique lens material gives outstanding performance in term of clarity, weight and strength. It's 3 times more transparent, 3 times lighter and 30% stronger than polycarbonate. The result makes them incredibly comfortable to wear even after long hours of fishing.



RGrip anti-slip and hypoallergic nose pads and earpieces:

MADE IN ITALY

PRECISION VISION GEAR

NEW

PRECISION VISION GEAR

The polarized lenses of the Rapala Precision sunglasses block 100 % of UVA and UVB rays while enhancing contrast and colors – giving you a crystal-clear view of what lies beneath the surface. Like many of our baits, each pair of Rapala Elite sunglasses is 100 % handmade and painted by hand. Designed for long days on the water, they provide unparalleled comfort.

Rclear lenses • Polarized • 100 % UVA & UVB Protection • Anti-Reflective Coating Inside • Hydrophobic & Olephobic coating outside • Hand-Made & Hand-Painted in Italy • RGrip anti-slip and hypoallergic nose pads and earpieces • Rigid Box & Cleaning Cloth Included

CLASSIC COUNTDOWN® 2-PIECE

Great pleasure to fish with Classic looking rod but with the newest technology available, this is the Classic Countdown ! Keeping classic feeling, the Classic Countdown fulfills all the needs of modern fisherman: fast response, light and perfect balance are only some of the many key features that are the CORE of this rod. The action is optimized for lure fishing in all conditions. Vtx45 Carbon blank construction gives extreme power still keeping the rod super light. Fuji guides ensure high performance and reliability. Custom made reel seat grants you an extreme confort in every occasion.

VTX45 carbon technology • Fuji Alconite • Exclusive Rapala Design • Custom wooden/aluminium reel seat • First grade cork handle • Fast action • Classic look

FINESSE

KERANGA SPIN

Kerenga is the name of a small ant widespread in South East Asia, which has the particularity to be very strong and can bite very hard. Like the ant that inspired its name the Rapala Keranga Spin is a rod that looks very light at first sight. With its weight and thin profile, you will hardly imagine how well it will stand fierce fights. It is designed to easily cast very light lures for light game fishing but is ready for big fish.

POPPING

XPLODE GT

To meet the rigorous demands of GT popping, Rapala Magnum Explode GT is specifically designed to meet the challenges. Built on high elasticity VTX45 Carbon blanks, this rod allow easy casts and efficient hook sets with amazing lifting power to battle with any monster. At 7'8" with a max line rating of PE10 and cast weight up to 170g, the Rapala Magnum Explode GT is your all round verstaile GT popping rod. Fitted with all Fuji K Guides, reel seat and lock nut for performance and durability. The handle is specifically designed with embedded GT logo and is the perfect length for casting and working poppers or stick baits. The Rapala Magnum Explode GT comes in 2 piece butt joint for ease of travel.

EGING

SQUIDRO EGING

In recent years, we had numerous request for a Rapala all-round squidding rod. We listened to our customers and would like to introduce the Rapala Squidro Technical Eging Edition squid rod. We designed this rod for all purpose squid fishing be it from the shore or from a boat. Materials were blended to achieve the ability to work common squid jigs ranging from size 2.5 to 4.0. No compromise was taken when making this rod durable for whipping large squid jigs. Sensitivity was also incorporated to ensure that you could feel the squid take when the squid jig was free falling. With a length of 8'6" and line rating of PE 0.4 to 0.8, this 2 piece version rod will accomodate most squid fishing scenarios. Rapala Squidro is fully fitted with Fuji reel seat and all guides for extra performance and reliability. Appart from the technical side of design, we made the Rapala Squidro cool looking with carbon weaves, purple accents and highlights. The carbon weave adds that stiffness to the lower section of the rod for fast hook sets and distance casting. Looking for an all purpose technical squidding rod, then do check out the Rapala Squidro. Supplied with a rod bag for ease of travel.

okuma

RISING WITH EVERY CHALLENGE

The average person might stumble upon a remote beach and find inspiration in the texture of the sand, curl of the waves and the salty spice of the air. For the community of anglers, however, playing witness to nature is far less satisfying than direct participation.

As we approach every piece of water, our attention inevitably falls to what lies beneath the surface: beneath the waves, off the point, on the edge of structure, at the intersection of currents. It's the fish and their habits, their power and speed that captivate our attention. Through rod and reel we find our connection. Some call it sport. We call it a way of life that's rich with experiences.

At Okuma Fishing Tackle, our goal is to enhance every encounter. Integrating the latest advancements in materials and construction techniques is a means to downplay the presence of the gear. Eliminate weight and increase feel. Enjoy a running fish instead of fearing it. Button down the drag and go toe-to-toe with complete confidence. Your focus is not on the equipment; it's on the fish.

Wherever your travels take you, from the local pond to distant reef, we're proud to be your partner in the discovery of what lies beneath.

SPINNING REEL TECHNOLOGY

MAXGEAR

Makaira reels feature a forged, machine cut stainless steel main gear paired with a 17-4 stainless steel pinion gear. This gear system is unmatched in this category.

ALG

With today's super braided lines & lighter more compact reels, ALG offers anglers lighter weight gears without compromising on strength & durability. Adding to their longevity, ALG gears are anodized to hold up to the elements much better than traditional gearing materials.

HDGII

Okuma's proprietary High Density Gearing II incorporates an extremely strong alloy composition with a special anti-corrosion coating process. The result is high density, corrosion resistant gears that are built to handle the severe elements & brutal strains placed on a reel's internal gear system.

PRECISION ELLIPTICAL GEARING SYSTEM

The Precision Elliptical Gearing System advantage boils down to one thing & one thing only – performance. By regulating the speed of the spindle stroke, reels equipped with this system wind line more consistently & uniformly on the spool, resulting in level line lay. This creates less friction during casting for increased distance, greater accuracy & longer line life, as well as smoother, more uniform drag pressures. Pick up any Okuma reel equipped with this feature & feel for yourself the balance, smoothness & power that are all characteristics of the Precision Elliptical Gearing System.

SPINNING REEL DUAL FORCE DRAG

DFD incorporates both surfaces of the spool to maximize high-end drag pressure, efficiency & overall smoothness. Mounted in the top of the spool & protected by the Hydro Block system is a multi-disc felt drag system that works in conjunction with a secondary drag system that is mounted under the spool. Even pressure is applied to both surfaces of the spool for maximum stability.

LITECAST™

Litecast™ is the latest in Okuma's reel technology. Reels with the Litecast™ structure are composed using a magnesium material in the casting process, making the integrity of the reel incredibly strong & 15% lighter than aluminum alloy reels. Okuma Cedros Saltwater Spinning Reels feature the new Litecast™ construction.

ALUMILITE FRAME CONSTRUCTION

AlumiLite construction incorporates Okuma's rigid aluminum body technology on spinning, trolling and fly reel designs. Aluminum frames are stronger and more rigid and are capable of withstanding more pressure and torque than traditional graphite frames. These lightweight, diecast aluminum frames provide more precise tolerances for precision gear alignment, maximum castability and ultimate durability.

C-40X

Okuma's C-40X carbon technology utilizes a specially blended graphite polymer. The carbon fibers in this material are elongated & reinforced, creating a substantially stronger composite than standard graphite materials. At 25% lighter, 1.5 times stronger & 100% anti-corrosive, C-40X translates into an extremely lightweight & durable construction.

TORSION CONTROL ARMOR

The Torsion Control Armor (TCA) design found on the new Inspria spinning reels is made with Okuma's C-40X long-strand carbon fiber technology. This not only makes the reel lighter, but also makes the reel extremely rigid which reduces twist & torque, keeping the internal parts in perfect alignment.

CYCLONIC FLOW ROTOR

The Cyclonic Flow Rotor (CFR) was designed to create a "cyclonic" airflow, which significantly increases air flow through the ported rotor. This thoroughly tested design allows for a much faster drying time if the reel becomes wet, minimizing corrosion possibilities throughout the reel.

CENTRIFUGAL DISC BAIL

Okuma's Centrifugal Disc Bail (CDB) is a unique new design that incorporates a heavier brass disc that is perfectly weighted & balanced to create a smoother & easier bail operation, while increasing the strength & stability of the overall bail function.

SPINNING REEL TECHNOLOGY

QUICK-SET

This system allows for instant handle engagement & eliminates all handle back play commonly found in many reels. This is accomplished by using a corrosion- resistant stainless steel roller bearing that engages the reel in one direction for rock-solid hook sets.

EFR II

The Even Flow Roller System utilizes a ball bearing under the line roller to maximize efficiency. This roller helps reduce line twists by freely rolling over the line roller without friction. Without this system, line will naturally twist when drag is pulled.

BAITFEEDING SYSTEM

Okuma's baitfeeding system allows anglers to disengage their spinning reel spool & allow their bait to run freely. The baitfeeding system incorporates a secondary micro-adjustable drag system at the rear of the reel that allows for precise adjustment of the spool for bait control. In order to disengage this system simply turn the handle. The On/Off lever on the rear of the reel will automatically disengage the baitfeeding system so you can fight your fish with the main drag system.

RES II

The RES II System stands for Rotor Equalizing System. This second-generation RES System incorporates a computer-balanced weight precisely placed in the rotor. This weight allows for precision balance & eliminates all spool wobble for perfect alignments & smooth cranking.

HIGH PERFORMANCE BEARINGS

The balls used on the HPB's are constructed from the same high-grade stainless steel material as the bearing housing. These bearings were designed to be more than 10 times more resistant to saltwater than standard stainless steel bearings. These bearings may even outlast the angler himself.

HYDRO BLOCK

The Hydro Block design features a rubber gasket mounted in the top of a spinning reel spool. This rubber seal blocks water & foreign materials from entering the drag system. The Hydro Block system ensures that your drag washers always perform at optimal levels.

LOW PROFILE REEL TECHNOLOGY

FLITE ™ SPOOL

Flight spool is a Dream Tackle Design allowing Okuma to offer a super tuned spool on our premium baitcast reels. The spool is 33mm in diameter and was developed for long distance casting as well as finesse style fishing. The complete spool design weighs in at just 0.33 ounces as a result of its uniform thickness, which is what helps set this super tuned spool apart from others.

MCS

Okuma's Magnetic Control System reduces backlash & improves casting distance by utilizing the magnetic field generated by the high RPM spinning of the spool during casting. The magnetic field is influenced by the adjustable cast control magnets which exert an opposing force & allows for minute & accurate adjustments.

VELOCITY CONTROL

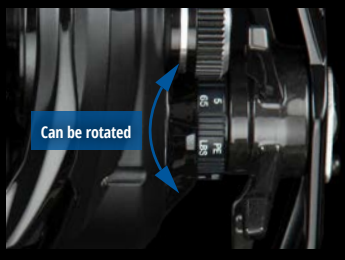
The Velocity Control System is an adjustable, 6-pin centrifugal braking system for precision spool control. Weights can be adjusted IN or OUT for additional spool control. Positioning the weights in toward the spool allows for more freespool, while adjusting the pins out away from the spool allows for more control. Anglers can alternate weights until they find that perfect balance for casting.

SPOOL ACCESS PORT

This unique new design can be found on Okuma's low profile baitcast reels. The Spool Access Port allows for quick access to the spool by simply sliding the lock/unlock lever on the sideplate opposite the handle. This system allows for quick spool changes, but more importantly it allows quick access for adjusting the Velocity Control System.

FLITE ™SHAFT

Flite shaft is a patented hollow stainless steel spool shaft with precision stainless steel balls pressed on each end. These balls rotate under pressure to reduce friction and help increase casting distance. Providing the perfect balance point between weight, strength and smoothness.



UNIVERSAL LINE DIAM INDICATOR

Always know what line you spooled on your reel when you pick it up.

TGT (TRACTION GRIP TECHNOLOGY)

Okuma TGT is made of non-slip durable materials that not only provides maximum grip, but comfort and control in all weather conditions.

TROLLING AND CONVENTIONAL REEL TECHNOLOGY

XL GEARING

The XL gearing design found on both lever drag & star drag reels incorporates an oversized gear box that features an enlarged gearing system & enlarged drag system. The drag surface areas on this system are more than 50% larger than a standard gear-box design. For the gear system, the major advantage is that the gear teeth are substantially larger, allowing more strength & cranking power. This is how we are able to offer a high-speed gear ratio reel without sacrificing cranking power. Our XL gearing system essentially turns your reel into a winch.

SELF LUBRICATING GEAR SYSTEM

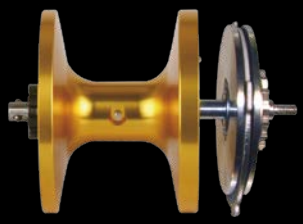
The self-lubricating gear system is a feature found on Okuma's higher-end star drag reels. The main gear on this system incorporates a heat-sensitive oil-impregnated brass bushing that is mounted in the center of the gear. This system releases oil if friction increases to keep the main gear & drive shaft running smoothly in all conditions. Okuma is the first company to adopt this technology which originated in the large machine industry where this function has been time tested for many years.

MACHINED RIGID FRAME

Okuma's Machined Rigid Frame construction incorporates a one-piece fully-machined aluminum frame. These rigid bar-stock aluminum frames are the ultimate in precision alignment & tolerances withstanding more pressure & torque than any other material used in our industry for frame materials. Okuma features these anodized frames on fly reels, baitcast reels, lever drag reels & star drag trolling reels.

LEVER DRAG DUAL FORCE DRAG

For extremely smooth & strong drag outputs, Okuma's Makaira and Alijo's 2-speed reels are designed with a patented Dual Force Drag system. This drag system is specifically engineered to be mounted in the right side of the spool, designed around a Pull Bar Drag System which keeps all mechanical workings in precise alignment & places no pressure on the frame. This system works in conjunction with a custom designed thrust bearing, which alleviates side load at heavy drag settings.



BODY ARMOR

Okuma's stainless steel Body Armor eliminates the frame flex commonly found in graphite framed trolling reels. This feature incorporates two large stainless steel rings that are mounted to both sides of the frame. The harness lugs are integrated into the body armor design & eliminate the pressure commonly placed on the harness lugs by redistributing the pressure to these large-diameter rings.

2-SPEED GEARING

Okuma's 2-speed technology incorporates two sets of stainless steel main & pinion gears, allowing anglers the option of a high-speed gear ratio or a powerful low-speed gear ratio for maximum power & torque. To shift gears it is as easy as pushing a button or popping a lever with Okuma's unique shifting design to obtain the appropriate gear ratio you desire.

SPEED LOC PINION GEAR SYSTEM

The SLG technology incorporates a dual-step pinion gear system on star drag reels that allows positive engaging at extreme high speeds. The SLG system allows for instant gear engagement when engaging from freespool to strike at speeds in excess of 50 MPH.

MSS

Strong, Stable, Smooth - Okuma's Mechanical Stabilizing System is a support system that ties the spool shaft, pinion gear, pinion gear bearing, drive shaft & main gear together with a single support system. While other reels on the market offer minimal or no gear stabilization, this patented Okuma design allows all of these critical parts to stay in precise alignment. Designed specifically to hold up to the demands of braided & wire line fishing, the MSS support system stabilizes the spool shaft at 3 key stress points to eliminate flex under pressure – which directly translates into a reel that is more durable, stronger & smoother than the competition.

MCS

Okuma's Magnetic Control System is a fully-sealed, 100% waterproof cast control system that reduces backlash & improves casting distance by utilizing the magnetic field generated by the high RPM spinning of the spool during casting. The magnetic field is influenced by the adjustable cast control magnet which exerts an opposing force & allows for minute & accurate adjustments.

WIDE MOUTH LEVELWIND

This heavy-duty, stainless steel levelwind is Titanium coated & built to withstand the punishment of both braided & wire lines. The guide has been designed with an increased opening to insure proper knot clearance when fishing with double lines. This wide space allows for Albright or similar connection knots, as well as swivels & copper line to pass through the guide easier & be wound directly on the spool.

STRIKE ZONE

Okuma's Strike Zone linecounter system incorporates a mechanical counter that precisely measures line based on spool revolutions. These counters measure in feet & are calibrated at the factory to be most accurate with a full spool & monofilament lines.

T-BAR HANDLE

T-Bar Handle: The patented design of the T-Bar handle offers a true ergonomically correct angle to ensure an angler gets maximum power with minimum fatigue. The T-bar takes full advantage of the natural dynamics of the human hand, wrist & forearm to help sustain power & endurance for the angler.

ERGO GRIP

The Ergo Grip handle knob is an extremely comfortable oversized handle-knob design for both speed & power. This soft-touch knob has been ergonomically designed to fit in the palm of your hand & will be found on certain Okuma lever drag reels, star drag reels & some spinning reel models.

HIPPO GRIP

The Hippo Grip is a unique reel-clamp design that serves triple duty when fishing offshore. This heavy-duty, forged aluminum reel clamp securely supports your reel to the rod for maximum safety. This clamp also incorporates a small hole that was designed to be used with a safety line for trolling. On the rear of the clamp is a large diameter hole that was designed to be used as a trigger. The large hole should be mounted facing the butt of the rod.

CRC

Okuma's Corrosion Resistance Coating (CRC) consists of a thin layer of Corrosion X HD applied to all internal & external parts. The CRC process actually penetrates & bonds to the metal, which helps significantly in the reduction of corrosion, & towards the long term protection of your reel.

SPINNING REELS

SPINNING - SALTWATER

MAKAIRA®

Forged aluminum, machine cut body/sideplate • Forged aluminum, machine cut Cyclonic Flow rotor • Forged stainless steel main gear for ultimate power and strength • Precision machine cut 17- 4 grade stainless steel pinion gear • Oversized 17- 4 grade stainless steel spool shaft reduces flex • Hydro Sealed Body and DFD system for maximum protection • Carbonite high output drag with Cal's drag grease on full DFD • Customized pre- set drag system, works like a lever drag reel • 9HPB + 1RB corrosion resistant stainless steel bearings • Dual anti- reverse system for maximum strength and reliability • Quick- Set stainless steel German anti• reverse roller bearing • CRC: Corrosion- resistant coating process • Machined aluminum, 2- tone anodized spool with LCS lip • Machined aluminum screw- in handle arm for added strength • Right and Left handles are designed differently: Order by Rt/Lt • Heavy duty, solid aluminum bail wire with manual trip function • Rotor brake system works in conjunction with manual bail trip • Machined aluminum handle knob: Custom options available

TESORO

The ultimate saltwater performer, the Tesoro features an oversized brass drive gear for strength and durability – further enhanced by the Gearing Stabilization Design for improved gear alignment. The IPX-7 rated Hydro Sealed Body protects against full water submersion and splashing. Within the Tesoro's full-Alumilite body resides a Dual Force Drag system with a whopping 29,9 kgs of max drag power.

FEATURES

- Full-Alumilite Body & Sideplate
- IPX-7 Rated Hydro Sealed Body CFR: Cyclonic Flow Rotor
- Carbonite High-Output Drag with Cal's Drag Grease on Full Dual Force Drag
- 12HPB + 1RB Corrosion-Resistant Stainless Steel Bearings
- Dual Anti-Reverse System for Maximum Strength and Reliability
- Machined Aluminum Screw-In Handle Arm for Added Strength
- Smooth Machine-Cut Brass Gearing with an Over-Sized Drive Gear
- Gearing Stabilization Design for Gear Alignment
- Frictionless Main Shaft Design
- Oversized Titanium Spool Shaft for Maximum Strength-to-Weight Ratio

SALINA

The Salina saltwater spinning reel's LITECAST magnesium alloy construction provides the strength and rigidness of aluminum – but 15 % lighter. Building on that foundation of muscle, the Salina offers a Dual Force Drag system with 20 kg max drag power. When fighting strong fish, the 3-point pinion gear stabilization design provides precise alignment, even under heavy loads.

FEATURES

- DFD: Precision Dual Force Drag System
- LITECAST Construction
- Multi-Disc Drag Adjustment for More Precise Settings
- • 20 kg Max Drag | 6HPB + 1RB Corrosion-Resistant Stainless Steel Bearings
- Full Grease Pack Prevents Water Intrusion
- Rubber-Sealed Bearings for Ultimate Protection
- Machined Aluminum Screw-In Handle
- Machined Aluminum 2-Tone Anodized Round Knob
- Even Flow Roller System with DLC Coating
- Manual Bail Trip Function for Ultimate Reliability
- Machined Aluminum 2-Tone Anodized Spool

CEDROS

Specifically designed for saltwater use, the Cedros spinning reels feature Okuma's Litecast Blade body design, Dual Force Drag System for extreme stopping power & our proprietary High Density Gearing with a special corrosion resistant coating. Combine this with a high-speed gear ratio & a customized aluminum handle, you have one of the best saltwater jig fishing reels on the market.

FEATURES

- DFD: Precision Dual Force Drag system
- Multi-disc drag adjustment for more precise settings
- LITECAST: Body construction is 15% lighter
- CRC: Corrosion resistant coating process
- 6HPB + 1RB corrosion resistant stainless steel bearings
- Dual anti-reverse feature on 8000-14000 sizes
- Quick-Set anti-reverse roller bearing
- Manual bail trip function 8000-14000 sizes
- HDGII: Corrosion resistant, High density gearing
- Precision machine cut brass pinion gear
- Machined aluminum, 2-tone anodized spool

CEYMAR HD

Continuing the top-selling line-up, the Ceymar HD offers crossover performance for both fresh and saltwater anglers. The spinning reel's oversized drive gear delivers increased power and durability – while the Gearing Stabilization Design improves gear alignment for smooth and reliable operation. The Ceymar HD's machined aluminum screw-in handle is in direct contact with gears and reduces handle play and improves the overall feel while cranking.

FEATURES

- HDG-II: High-Density Gearing II
- Oversized Gearing
- Corrosion-Resistant Graphite Body
- Gearing Stabilization Design
- Aluminum Screw-In Handle
- Frictionless Main Shaft Design
- Even Flow Roller System with DLC Coating

BIG PIT - SURF

NEW

FLITE SURF

The Flite Surf is designed for professional long casting and extremely light weight. Equipped with C-40X body and rotor, ultra-lightweight spool, screw-in handle and aluminum spool shaft for ultralightweight. Reduce wear and tear on fishing lines we designed a one-piece bail, and the other is a roller with a special DLC coating. All use HPB to achieve long-term corrosion resistance.

FEATURES

- 35mm stroke with super slow oscillation
- Light weight C-40X carbon frame and sideplates
- C-40X Cyclonic Flow Rotor for corrosion resistance
- One-Piece Bail
- Even Flow Roller System with DLC coating
- Frictionless main Shaft design
- Ultra-lightweight, A7075 aluminum shaft
- Ultra light Screw in handle
- Ultra light spool
- Rotor with tangle guard - prevents line from entering the shaft
- Rotor brake system
- Carbon fiber drag system
- Fast progressive drag
- All HPB Bearing
- Worm shaft transmission system

OBSIDIAN

An extremely lightweight carp reel, the Obsidian is made with Okuma's C-40X carbon – the durable yet light graphite. The light and ergonomic feel is perfected by the ultralight spool and the frictionless main shaft design that eliminates resistance when reeling. Obsidian's super-slow oscillation, one-piece bail, and worm shaft transmission ensure exceptional line lay and superb casting.

FEATURES

- 35mm Stroke Spool with Super-Slow Oscillation
- Lightweight C-40X Carbon Frame & Side Plate
- C-40X Consturcion & Cyclonic Flow Rotor For Corrosion Resistance
- Ultralight Screw-In Handle
- Ultralight Spool
- Even Flow Roller System with DLC Coating
- Frictionless Main Shaft Design

BAITCAST REELS

BAITCASTING

KOMODO SS

The Komodo family of low-profile baitcast reels has been the recipient of tremendous accolades. One of our favorites being from a 30-year big fish veteran regularly referring to the reel as a “excellent value” or “best toughness and value I’ve ever seen.” This is no surprise. Komodo reels, featuring stainless steel gearing and drive shafts, along with amazing levels of drag output, take on the largest freshwater fish like pike and salmon, along with the toughest inshore species like bass with a level of power and durability that is best in their class. The selection includes two sizes, with options in gear ratios and handles to deliver the perfect reel for your big fish applications.

KDS-364J / KDS-364JLX

FEATURES

- Stainless steel main gear for ultimate power and strength
- Precision machine-cut stainless steel pinion gear
- Heavy-duty stainless steel drive and spool shafts
- ALC: Rigid diecast aluminum frame and gear sideplate
- CRC: Corrosion-Resistant Coating process
- A6061-T6 machined aluminum, anodized spool
- Multi-disc high output Carbonite drag system
- Micro-click drag star for precise drag settings
- 350 size: 6HPB+1RB corrosion resistant stainless steel bearings
- 450 size: 7HPB+1RB corrosion-resistant stainless steel bearings
- Precision Japanese ABEC-5 spool bearings
- Dual anti-reverse for maximum reliability
- Quick-Set anti-reverse roller bearing
- 6-pin Velocity Control casting system
- Synchronized levelwind optimized for braided line
- Zirconium line guide inserts for use with braided line
- Available in both right and left hand retrieve
- On/Off clicker for trolling, chunking or bait fishing from size 300 and up

Kuma

CONVENTIONAL REELS

MAKAIRA TROLLING REEL TECHNOLOGY

DUAL FORCE DRAG SYSTEM

The specialized carbon DFD or Dual Force Drag system used on all Makaira reels was specifically engineered to be mounted in the right side of the spool in order to bring all the mechanical workings closer together to maximize alignment and durability. The farther mechanical parts are separated the more opportunity there is for tolerance error and flexing which causes parts alignment issues. The DFD principal was specifically designed around the "Pull Bar Drag System". The major advantage to a "Pull Bar Drag System" is that the drag is being pulled rather than pushed. The most common type of lever drag in the industry is the "Push Bar Drag System". The Push Bar System places heavy pressure on the left side plate and utilizes the frame for overall stability which is a fatal flaw in this type of design. This pressure creates frame flex, reducing drag pressure and causing tolerance alignment issues. This problem is further exaggerated on open top designs from other companies. One of the major benefits to the pull bar design is that there is no pressure placed on the frame. Therefore, our open top frame designs will not suffer frame flex found in our competitors reels.

This highly efficient drag system was designed and engineered by Tiburon Engineering USA to increase maximum drag pressure, reduce side load pressure on ball bearings and improve heat dissipation for long term smoothness over extended periods. This Okuma DFD is considered a wet drag system comprised of two carbon fiber drag washers that are sandwiched together and bonded with a fiber glass core. Pure carbon washers are coated with a thin layer of Cal Sheet's Universal drag grease for virtually zero start up inertia. These washers are compressed by two precision ground 17-4 grade stainless steel drag plates that have been ground flat then polished for maximum smoothness. These stainless steel friction drag plates have a minimum 32 Rockwell hardness allowing for high-end drag settings and consistently smooth drag performance at all ranges. The drag system is secured to the right side of the spool by a 6061-T6 grade aluminum cover that features Type-II anodizing for maximum alignment, strength and corrosion resistance.

TOURNAMENT DRAG CAM IGFA LINE CLASSES FOR MAKAIRA

Okuma's TDC or "Tournament Drag Cam" is designed with a more gradual ramp in the cam system that is intended for anglers fishing light line and tournament IGFA line classes. The standard cam that is installed in the Makaira reels is engineered to be compatible with braided line and offers aggressive drag ramps in order to output heavy drag ratings. The Makaira reels are engineered to output extreme drag pressure, but this is not required by all anglers. These reels have been designed to offer customization and with the TDC cam system, Okuma is offering anglers a reel that is versatile for a wide range of fishing applications, allowing anglers the ability to achieve a more gradual increase in drag settings.

SILENT ANTI-REVERSE:

The Makaira's proprietary anti-reverse system allows for a smoother and quieter feeling. We equate this feeling to that of a Lexus, when compared to other reels in the market. Most reels in the market hide their rough gear quality by the noise and vibration caused by the engagement and clacking of the anti-reverse pawls. The Okuma silent system is unlike any other 2-speed reel in the industry for smoothness. This anti-reverse system is supported by a 12 point double dog anti-reverse pawl system. The Makaira system is very simple in principal but the performance is extremely advanced. As you turn the reel forward the anti-reverse pawls slide open allowing a friction free and quiet retrieve. As soon as the handle is stopped or pulled backwards the anti-reverse pawls are engaged into place by their drive shaft actuated sliding system. The strength of this anti-reverse system does not solely rely on a dog spring like found on most of our competitors reels. The sliding function does not rely heavily on a dog spring system and is mainly controlled by the forward and reverse movement applied to the drive shaft through the movement of the angler turning the handle.

HELICAL CUT GEARING:

Makaira lever drag reels utilize helical cut main and pinion gears. This process allows for improved gear meshing which equates to improved gear smoothness. The angled teeth found in helical cut gears engage more gradually than straight cut or spur gear teeth. This allows helical gears to run smoother and quieter compared to spur gears. Spur gears cause impact stress and noise, because of the hard meshing and can not take as much torque as helical gears because their teeth are receiving impact blows as they mesh together.

GREASE AND OIL:

To further enhance the corrosion resistance of Makaira reels, Okuma applies our CRC or Corrosion Resistant Coating process to all internal and external parts for maximum protection. Our CRC process utilizes a coating process of Corrosion X HD formula that actually penetrates and bonds to the aluminum parts for long term protection. The extra steps taken in the assembly of the Makaira allows this reel to be a leader in the fishing tackle industry for long term use and performance. To further enhance the Makaira's function and performance, Okuma applies Cal's Universal drag grease to our carbon fiber drag washers for the smoothest wet drag system. The addition of Cal's drag grease allows for virtually zero start up inertia and smooth performance at all settings. Cal's Universal grease is also used for coating moving parts such as the main and pinion gears for improved performance.

CONVENTIONAL - TROLLING

MAKAIRA

6061-T6 machined aluminum frame with forged side plates • 17-4 grade stainless steel gearing • Helical cut gears for increased torque, smoothness and improved gear meshing • Makaira reels all feature two-speed gearing systems • Gold anodized two-speed gear shifter housing • Cold forged, Type-II anodized, machined aluminum spool • CRC: Corrosion Resistant Coating process • Patented spool pin system for use with braided or mono lines • Carbonite Dual Force drag system featuring Cal's universal drag grease • Custom designed thrust bearing: Alleviates side load on heavy drag settings • 4-pcs ABEC-5 precision Sapporo stainless steel ball bearings • MK-80WII features 6-pcs of Sapporo ball bearings • Double-dog, proprietary silent anti-reverse system • Ratcheting drag lever and pre-set knob for precise drag setting • Patented T-Bar handle with Easy Roll graphite insert on all models • Heavy duty stainless steel ratcheting clicker system • Heavy duty, 17-4 grade stainless steel drive and spool shafts • Type-II gold anodized frame, sideplates, spool, drag lever and handle • Open top frame design on 16II, 20II, and 50II • Lug and plug system on all open top reel models • Machined thumb rest on rear cross bar for improved ergonomics • Forged aluminum full hard anodized reel foot and reel clamp • Machine-etched marlin logo on left side plate • Precision placement of drain holes maximizes water removal from reel • Special screw ports around side plate screws reduces water/corrosion buildup

SOLTERRA B

NEW

Built to battle the strongest of fish, the Solterra SLX B is the new generation of the acclaimed Solterra saltwater trolling reels. Armed with thrust bearings, the Solterra SLX B withstands tremendous side loads and allows you to crank the handle with reduced resistance when under pressure. The modern finish perfects the performance-packed reel.

FEATURES

- Stainless Steel Main Gear, Pinion Gears & Shafts
- Carbonite Drag System with Cal's Universal Drag Grease
- Double Dog Silent Anti-Reverse on All Models
- Stainless Steel Body Armor Reduces Frame Flex (20-50W Models)
- Thrust Bearings Help Reduce Handle Turning Resistance

NEW

ALIJOS 2-SPEED

The Alijos 2-Speed Lever Drag is a lightweight, compact bodied, big fish stopping machine. Built with 6061-T6 machined aluminum for the ultimate in strength. The 1-piece frame continues around to the non-handle side, side plate which has a cast control system for precision spool control. The spool bearings are bathed in TSI oil giving it the ultimate in castability and frees spool. The Alijos reels feature a longer 90mm handle harm and oversized T-bar handle knob for great torque and comfort. The clicker mechanism has been reworked to give a louder clicking sound for trolling or dead stick applications. The new 2-speed shifting mechanism has been completely reworked by Okuma giving it the ultimate in shifting. The DFD: Dual Force Drag puts out tremendous drag pressure with its 100% larger drag plates.

FEATURES

- 17-4 grade stainless steel main and pinion gears
- Carbonite Dual Force Drag system with Cal's drag grease
- 6-NMB corrosion resistant stainless steel bearings
- Spool bearings feature TSI-301 oil for unmatched freespool
- Rigid 1-pcs frame and left sideplate construction
- 6061-T6 machined aluminum frame and sideplates
- Cold forged, Type-II anodized, machined aluminum spool
- Custom designed thrust bearing: Alleviates side load on heavy drag settings
- Silent retrieve system for ultimate cranking smoothness
- 90mm handle arm, increases cranking leverage/power
- Oversized T-Bar handle on all models, for cranking power
- Lug and plug harness system featured on 12 and 16 sizes
- External adjustable cast control system on left sideplate
- CRC: Corrosion Resistant Coating process

CAVALLA BLUE

Your guide to the deep blue, the Cavalla Blue lever drag reel covers a whole range of sea fishing, from vertical jigging to casting, trolling, and fishing with live bait. To handle the strength of species like the sailfish and yellow tuna, the Cavalla Blue is built with a rigid one-piece aluminum frame and side plate construction. The Corrosion-Resistant Coating process increases the reel's resistance against the elements.

FEATURES

- 6061-T6 Rigid Aluminum Frame & Side Plates
- Carbonite Drag Washers with Cal's Drag Grease
- Cold-Forged Type-II Anodized Machined Aluminum Spool
- 4 HPB Corrosion-Resistant Ball Bearings
- On/Off Bait Clicker
- CRC: Corrosion Resistant Coating Process
- 17-4 Grade Stainless Steel Main and Pinion Gears
- Silent Anti-Reverse System for Smooth Cranking
- Additional Stabilization Plate for Anti-Reverse

RODS

ROD TECHNOLOGY

UFR TECHNOLOGY

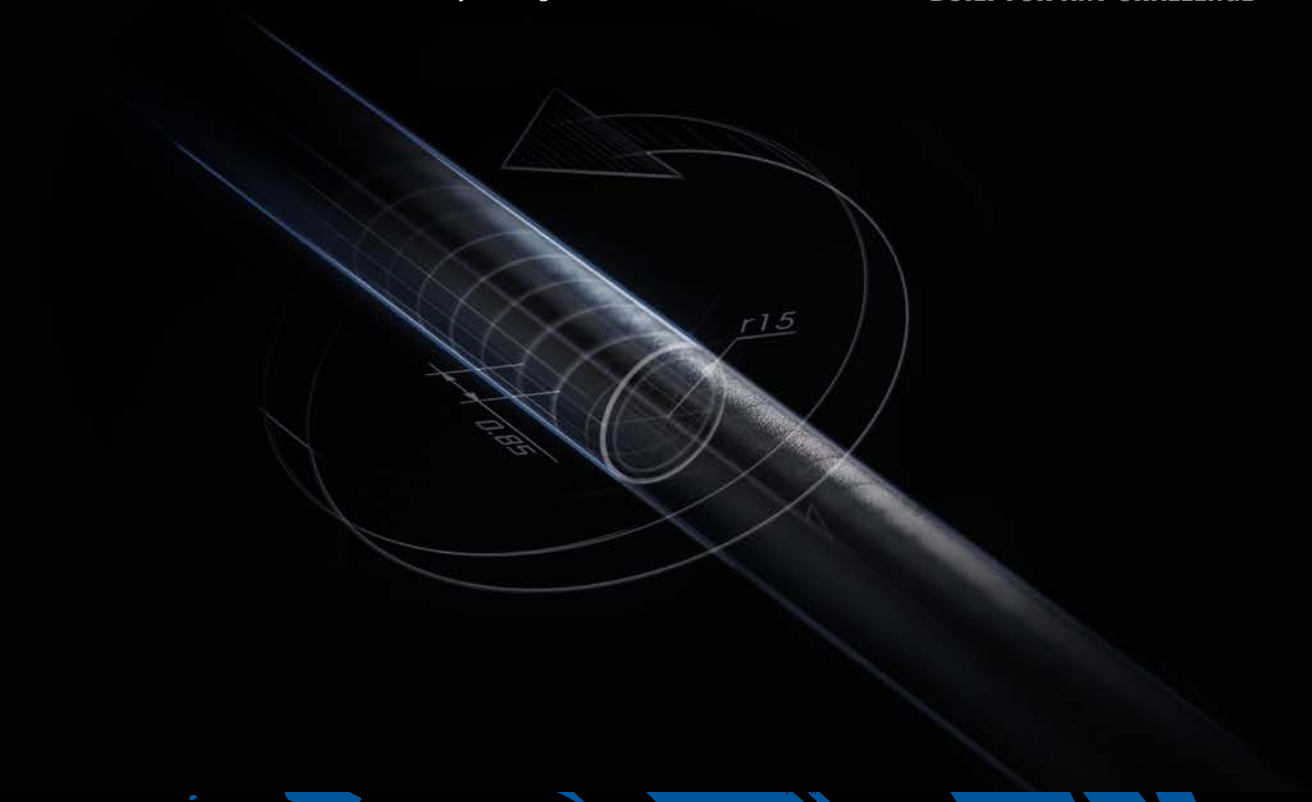
When choosing a rod, anglers often face the trade-off between a powerful but bulky rod that can catch big-sized fish, or a sensitive but weaker rod that can sense the bites of the smallest fish. We address this challenge with a revolutionary tip: Ultimate Flex Reinforcment (UFR), which redefines the future generations of rods.
Developed using a patented manufacturing process, the UFR tip combines strength and agility like never before, marking a breakthrough. Our UFR technology endows our rods with a 300% increase in lifting capability and an ability to bend up to 360°. With a longitudinal fibers around the rod blanks, our rods are more powerful, yet lighter and more flexible than traditional ones. As a result, our anglers no longer need to choose between power and sensitivity.

FREEING ANGLERS FROM THE CHOICE BETWEEN POWER AND SENSITIVITY

UMR TECHNOLOGY

Okuma's Ultimate Matrix Reinforcement (UMR) technology maximizes rod strength while minimizing weight, so you can rise to meet any challenge.

LIGHTWEIGHT STRENGTH BUILT FOR ANY CHALLENGE



SPINNING

GUIDE SELECT

Okuma's Guide Select series covers a range of fishing techniques with professional-level performance provided by carefully selected components. From blanks with high-quality Japanese carbon and Okuma's UFR® tip technology to Sea Guide® line guides, the Guide Select Series is for those who want the equipment specifically designed for their style of fishing.

FEATURES

- 30t and 30+40t carbon
- Seaguide SS with Zirconia insert
- Fuji VSS reel seat for spinning
- Fuji TCSM reel seat for casting
- UFR Tip technology
- Premium EVA Grip

COLD WATER IN-LINE

Designed for freshwater trolling, the Okuma Cold Water inline rod's moderate action and powerful and responsive 24-ton carbon blank are optimal for targeting agile and vigorous fish like salmon. The inline design of the Cold Water allows for a flexible structure with an even distribution of force when fighting the fish. The high-quality tip guide line material ensures the line endures stretch and stress without breaking.

FEATURES

- 24T Carbon Blank
- Fuji® DPS Reel Seat with Aluminum Double Lock
- Premium EVA Grip
- Anatomic Front Grip

INSPIRA

Purely designed for egi and tataki fishing, the Inspira Egi & Tataki's solid full-carbon grip transfers even the slightest of vibrations directly to your hands – allowing you to feel everything that happens beneath the surface. Covering shore and boat fishing techniques, the series' high-tonnage carbon blanks are fitted with premium Fuji® K Alconite line guides and tips specifically chosen for different applications. The removable hook keeper allows you to customize the rod just the way you want it.

FEATURES

- High-Modulus Carbon Blank
- Fuji® K Alconite Guides
- Fuji® VSS Reel Seat
- High-Quality Tip (Different for Each Application)
- Carbon Fiber Rear Grip
- Carbon Front Grip
- Aluminium Trim Connectors
- Removable Hook Keeper

NEW

THUNDER FEEDER

One, two, three – strike! Specifically designed for targeting the fierce sturgeon, Okuma's Thunder Sturgeon rod delivers extreme casting capabilities for bolting large baits into the distance. The rod's reinforced blank boasts incredible reserves of power and responsiveness to wrestle down the wildly jumping sturgeon – and to withstand even the most thunderous strikes.

FEATURES

- 4T+30T Carbon Blanks for Responsiveness, Power and Durability
- BOPP Spiral Reinforcement Blanks with the Alternate Matt and Glossy Showing
- Tangle-Free Stainless Steel Frame Guides Help Reduce Wind Knots
- Zirconium Inserts Offer Compatibility for both Braid and Mono
- Okuma Heavy Duty DPS-H Reel Seat
- Durable Shrink Tube Grips and EVA Foregrip with Good Balance Design
- 4-Tele Blank Design Offers Easy Transportation
- High Quality Cloth Bag Package

COMPETITION AVENGER

The Competition Avenger tele rods are built with a specific goal: an unmatched float fishing experience. The light yet powerful construction of the rod's high-modulus blank offers the sensitivity and power required for targeting (and lifting) large seabream from rocks and high ground. The high-quality components of the Competition Avenger allow for precise and exciting float fishing even in adverse conditions.

FEATURES

- Light and responsive 30T low resin carbon blanks.
- X-wrap carbon reinforcements improved strength and durability.
- Fuji K-Concept guide frames help reduce wind notes.
- Fuji Alconite guide inserts offer premium performance.
- Fuji NS Plate Type reel seat.
- High quality cloth bag.

make your own luck

Fishing is a universal sport, connecting fisherman around the world. It's a universal language. Once a way to feed villages, now a way we unite with our fellow anglers. When it comes to fishing as a sport, we don't look at it as another pastime. Fishing is our passion; it is part of our culture passed down from generation to generation. It connects our families with tall tales, it brings us around the dining room table. You finally have the freedom and time to explore fishing as the incredible sport it is. Venture out with more than just the coolest hooks, gear, bait and technology. Pack some class in your tackle box,
and elevate the status of the world's most impressive outdoor sport. It's time to reshape your ideas
about fishing.

Participation is a privilege, not a right... represent our sport with honor, on and off the water. Exhibit noble character and conduct yourself as a positive role model.

t's time we re-establish the sport as one where anglers can fully appreciate it. Let's embrace socialization and cooperation between fisherman of all skills levels. It's time to take fishing up a notch... For those who appreciate this sport, offers great potential for expanding our cultural horizons. Let's take it there. Let's put fishing on the map as one of the world's most enjoyable and rewarding pastimes. Let's finally give fishing the center stage as an outdoor sport through the power of our fishing community.

BAITCAST REELS

THE FUTURE IS HERE.
ITS TIME TO RETHINK EVERYTHING YOU KNOW ABOUT BEARINGS…

CONCEPT ZERO BEARING

Made from our proprietary space-age polymer material, the CZB is here to replace traditional ball bearings. Unparalleled smooth operation with elite-level performance equal to high-priced specialty ball bearings. Typical ball bearings have extreme performance loss over time due to debris, environmental wear, and corrosion… the CZB does not. It is 100% corrosion-proof and will maintain high-level performance day after day.

CZB COMP

The "Next Level" CZB competition bearing takes bearing design to the max. The CZB Comp is precision machined to reduce contact area with the spool shaft. This process creates higher spool spin capabilities by lowering the frictional torque, resulting in measurable performance gains. Install these spool bearings for pro-level performance and extreme longevity.

All CZB and CZB Comp bearings are American designed, American Engineered, and proudly manufactured in the U.S.A.

BAITCASTING

CONCEPT Z SLD

The original Concept Z rocked the industry with its groundbreaking CZB technology. Pushing the edge of design, engineering, and materials forward is what the Z SLD is all about. The NEW Concept Z SLD doesn't disappoint, it starts with the new SLIDE magnetic cast control system located in the perfect place for anglers to adjust without missing a single cast. Control casting downwind and then upwind on alternating casts with a flick of the thumb. Pitch, flip, or just let it fly by combining or isolating the Low-Friction Centrifugal braking with the magnetic SLIDE braking. Zero Corrosion CZB Bearings and an Advanced Polymer drag system are placed within the new rock-solid Cast Iron Carbon frame and side plates. This design sets the new bar for material innovation.

FEATURES

- Slide Magnetic Cast Control System
- CZB Bearing Technology
- Hi-Tech Cast Iron Carbon Frame and Side Plate Construction
- Ti-Armor Aluminum Hamai Cut Drive Gear
- 20 lb / 9 kg Advanced Polymer Drag System
- Alert Drag Clicker
- Zero Ball Bearings (6 CZB Bearings, 1 Dead Stop Anti-Reverse)
- Arrowhead Line Guide
- Reinforced Clutch Cam
- KeepR Integrated Hook Keeper
- Generation II Hard Anodized Worm Shaft
- Low-Friction 6-Way Braking System
- Beetle Wing Rapid Access Side Plate
- Delivered with an orange Skull Cap Reel Guard

CONCEPT TX3

The heir to the saltwater throne, the Concept TX Gen III is all you loved in the TX II – and more. Designed to thrive in harsh environments, this baitcaster delivers both power and endurance. The guts of this saltwater beast are awe-inspiring, to say the least: H.A.M Hardened Brass Precision Cut main gear, Black Seal Corrosion resistant ball bearings, matched with Zero Corrosion High-Speed CZB Comp Spool Bearings and a Carbon Fiber Bull Drag capable of 18kg of pure strength. All housed in the reel's muscular, zerocorrosion chassis. To top it off, the Concept TX III comes with two handles - an oversized power handle and casting handle, making it the sovereign ruler of the salt.

FEATURES

- 40LB (18.14kg) Carbon Fiber Bull Drag
- CZB COMP 100% Corrosion Proof Spool Bearings
- Aluminum Frame and Gear Side Cover
- Ocean Armor 2 Protection Process
- Arrowhead Line Guide
- Beetle Wing Rapid Access Side Plate
- Alert Drag Clicker
- Casting Handle & Oversized Power Handle w/2 length adjustments

CONCEPT C2

Exceptionally light, the Concept C Gen II weighs 5.89 oz/167 g! Loaded with new tech and designed for performance, this is the reel you will want to cast all day and never put down. You will find yourself re-tying your lures, instead of grabbing the other combos you prepared. Cast Iron Carbon material is a major advancement in material technology that delivers on our goal of building a zero-corrosion frame that fishes like it was metal. This High Strength extremely low-flex material matched with genius engineering and design elements is the key to the rock-solid feel and performance. The all NEW butter-smooth Ti-Armor Aluminum drive gear is 3X more resistant to environmental wear. The Concept C Gen II features include an Arrowhead Line Guide, Beetle Wing Rapid Access Side Plate, KeepR Integrated Hook Keeper, 25 lb. / 11 kg Bulldog Drag, High-Spin Anti Corrosion Bearings, Railed Clutch Cam, and much much more.

FEATURES

CONCEPT A2

The new Bulldog Carbon Drag System packs 25 lbs. / 11 kg of stopping power. Equipped with H.A.M. brass main gear and cut with Japanese Hamai Precision, it's a formidable weapon. The ultra-low palm fitting profile features 25% more line capacity while maintaining a manageable size. The Concept A Gen II proves design intelligence through features like its Railed Clutch Cam, Gen II Line Guide, and new water channeling frame. The new Low-Friction Braking System provides anglers with finer, more relevant adjustments for all lure weights. The reel is packed with unique and patented 13 Fishing only features like the Arrowhead Line Guide, Beetle Wing Rapid Access Side Plate, and KeepR Integrated Hook Keeper.

FEATURES

- HD Aluminum Frame with Ocean Armor 2 Treatment Anti-Electrolysis Screw Pads
- H.A.M. Japanese Hamai Cut Hardened Brass Drive Gear
- 25 lb / 11 kg Bulldog Drag System
- 7 BB (2 High Spin Corrosion Resistant BB, 4 Stainless BB, 1 Dead Stop Anti-Reverse)

MODUS C2

You know the little brother that makes the Little League Baseball team a year before he's old enough – because he is too good for Tee-Ball? This is the Modus C2. Outperforming its peers, the C2 features high-spin spool bearings, 6-way centrifugal braking, and many other features found in our higher-priced models. The HD Aluminum Chassis creates a super solid feel under pressure and houses a Japanese Hamai Cut aluminum drive gear and an 8kg Multi-Material Drag System. Don't underestimate this Modus when you are looking for a baitcaster that over-delivers.

FEATURES

- HD Aluminum Frame
- High-Spin Spool Bearings
- Japanese Hamai Cut
- Aluminum Drive Gear
- Arrowhead Line Guide
- 6-Way Centrifugal Braking
- 8 kg Multi-Material Drag System
- KeepR Integrated Hook Keeper
- Ported Aluminum Spool
- Dead Stop Anti-Reverse
- 7 Total Bearings (2 High Spin SS BB + 4 SS BB + 1 Anti-Reverse Bearing)

MODUS TX2

Designed and built for saltwater fishing, the Modus TX2 has earned its “TX” designation with 100 % corrosion-proof chassis construction, all saltwater-grade bearings, and an inshore fish-stopping 8 kg max drag. With more line capacity than its freshwater counterpart, the Modus TX2 is outfitted with Japanese Hamai Cut gearing, our dead stop anti-reverse system, and our classic cork handle knobs. This sleek feature-rich assassin continues the TX legacy of raising the bar for saltwater quality in low-profile baitcasting gear.

FEATURES

- Anti-Corrosion Saltwater Bearings (6 Anti-Corrosion BB + 1 Anti-Reverse Bearing)
- Zero Corrosion Frame
- Japanese Hamai Cut Aluminum Drive Gear
- Arrowhead Line Guide
- 6-Way Centrifugal braking
- 8 kg Multi-Material Drag System

ORIGIN F1

The F1 takes pole position in its category of reels, its sleek and low fastback body shape is a departure from outdated reel designs. The Venti 20LB 6 Disk Carbon Drag System works in conjunction with the Instant Stop Anti Reverse to put down the power and stamp out any hope a fish has at escape before being photographed. The F1 carries features never seen before in its category like the long casting Arrowhead Casting System, and Beetle Wing Side-plate that allows for rapid spool exchanges. If you want more for less this 7 bearing reel claims the top spot on the podium.

FEATURES

- Beetle Wing Side-Plate
- Venti 9.8kg 6 Disk Carbon Drag System
- MCS - Magnet Control System
- Instant Stop Anti-Reverse
- Arrowhead Casting System
- 7 Total Ball Bearings
- Trick Shop Compatible

13 FISHING RODS

SPINNING & CASTING

MUSE BLACK

Lighter, tighter, and more sensitive - you've heard it a million times, but this rod is it. It's not just the tech that makes the Muse Black one of the baddest rods out there, it's also the attitude that we put into each hand constructed taper. From 40 ton graphite to Fuji guides it conquers the gnarliest fish out there. The Evolve Airfoil Carbon reel seat transmits kinetic energy directly into the anglers' palm while anchoring the anglers' hand to the rod. Since its beginning, the Muse series has been designed around technique specific applications that provide anglers the elite piece of equipment they've come to expect.

FEATURES

- Japanese PVG40T Blank Construction
- Taper Designed with Zonal Action Technology (ZAT1)
- Evolve Snag-less Hook Keeper
- Evolve Carbon Divide Reel Seat
- Fuji K-Frame Stainless SteelGuides with Alconite Inserts
- High Density EVA/4A Portuguese Cork Split Grip Handle
- Evolve Fox Hole

OMEN GOLD

It's not unusual for greatness to come in small shapes. A descendant of the acclaimed Omen series, Omen Gold is for those who want mobility – without compromising quality. These rods come in lengths and actions suitable for freshwater and saltwater fishing. The shorter rods are ideal for targeting trout with spinners, soft baits and hardbody lures, while the larger range provides actions heavy enough to take on sea trout and other saltwater species. The Omen Gold rods come with a rod tube, ensuring effortless and safe transportation.

FATE V3

Fresh from the lab, Fate V3 has broken out of its test tube and is here. Without trying to re-invent the wheel, we added Evolve Soft Touch custom reel seat and Airfoil Carbon grips to manufacture grip and feel at absurd levels. The PVG 36T graphite blank decreases the weight and increases the sensitivity pushing the blank to be that much better'er. This rod is 100% gluten-free in order to be lightweight but we also managed to include tangle free guides with Zirconia inserts. Most importantly, we added the Snaggletooth hook keeper because it turns out that people like to store the baits in between uses.

FEATURES

- PVG36T Graphite Blank
- Evovle Soft Touch Engage Reel Seat
- Evolve Tangle Free Stainless Steel Guides with Zirconia Inserts
- Evolve Soft Touch Air Foil Carbon Handles
- Evolve Snag-less Hook Keeper

NEW SIZE

FATE BLACK

If you don't know the Fate Black series by now, it's time to get acquainted. This widely recognized series is back to make another bold statement. The continuing legacy of sensitivity and reactive spline on the PVG30T blank gives this rod an unmatched feeling. Through the Evolve Soft Touch ported reel seat and custom-wrapped stainless steel Alconite guides, this rod relays the most subtle of fish intentions by harnessing the energy and transferring it straight to your palm. The lighter setup of the new edition improves the overall feel while maintaining the custom-tuned tapers the series is known for.

FEATURES

- PVG30T Graphite Blank
- Evolve Custom Ported Soft Touch Rell Seat
- Evolve Tangle Free Stainless Steel Guides with Zirconia Inserts
- High Density EVA Split Grip Handle
- Evolve Snag-less Hook Keeper

MY NAME'S JEFF

Maintain your place on top of the food chain, My Name's Jeff is a hollow body floating swim bait. A floating chamber is perfect for inserting a rattle. Subtle paddle on the action is attributed to the USA sourced plastic material which makes this lure supple to create the alluring paddle presentation. As always, this bait is poured with Donkey Sauce in its veins in order to add that bit of extra enticement to its presentation.

NINJA CRAW

Swim it, hop it and ready yourself on the pause-and-drop, 'cause even the slightest movement on our Ninja Craw causes the claws to rise in a defense posture. That's really just it's way of waving hello to every fish in the vicinity. As delicious as it is deadly, this beauty's been given a good, long marinade in the legendary Donkey Sauce – much like every one of our soft plastic offerings.

RED = New 2023

Born on the rugged south coast of Africa, Williamson has been manufacturing lures for those who thrive on the challenge of finding and conquering the world's largest fish. Hard-won knowledge and a sincere passion for offshore angling assure that there's a Williamson lure to fill every spot in any saltwater spread.

SUPER SHARP PREMIUM HOOKS

All lures are armed with VMC® heavy-duty, super sharp, saltwater hooks

LOOP PROTECTION

Flared crimping sleeve & rubber loop protector eliminate chafing at the critical connection.

MONO LEADERS

Our lures that are pre-rigged with mono leaders use only premium Sufix® leader line.

HOOK LOCKING SYSTEM

Patented Hook Locking System keeps hook in proper alignment for consistent hook ups.

SPEED PRO DEEP

Constructed for pelagic gamefish. The patent pending “Auto-Tune” free-moving line tie design is self-centering, automatically aligning the lure for consistent action at very high trolling speeds, up to 15 knots, with optimum action at 6-10 knots. At 15 knots the minnow’s smooth swimming action allows the lure to be fished on lighter line, even with a light drag setting.

FEATURES

- Heavy-Duty Oval Split Rings
- VMC® Heavy-Duty Perma Steel® Hooks
- Laser Cut Plate Hook Hangers

FEATHER LURES

DIAMOND JET FEATHER® WITH SONIC STRIP

Trolls to 10 knots. Jet head gives large bubble trail. Diamond facets increase flash. Includes two extra Sonic Strips with heavy-duty snap. The incorporation of a sonic strip in the feather rigging adds an extremely effective third dimension: resonance. It is a proven lure for tuna and wahoo. How does the deadly Diamond Jet Feather with Sonic Strip work? The jet lure allows the strip to vibrate at high speed. Holes in the front of the jet head are directing the water flow under pressure directly on the strip. The skirt is opened by the water flow and leaves room for the strip to vibrate.

FEATURES

- Pre-rigged: DJFR05 comes with a single 5/0 hook and 5 ft/1.52 m of 100 lb Sufix® mono leader

LURES KIT

SAILFISH KIT

This is one of the best kits that you'll ever own for sailfish. Rigged with bait springs, these lures are ready to be fished with either ballyhoo or strip baits. The lure heads are specifically designed to accommodate the bait spring in the rear of the head, thus offering the bait maximum protection when trolling. Kit includes: six Sailfish Catchers and 4 exciters birds.

METAL JIGS

THUNDER JIG

The Thunder Jig has an asymmetric design that produces an static slash action with a medium or fast retrieve. This is a great all-round jig that will work in all conditions; with a great shape that is a baitfish silhouette simulation. The Thunder Jig is a tuna slayer but will be an excellent jig to catch other pelagic species as well like.

FEATURES

- Durable premium flash foil
- Extra strong VMC® Perma Steel® treble hook

RODS

TROLLING

NEW

TYPHOON

Designed for wrestling down massive game fish, the Typhoon trolling rod is built for extreme strength and endurance. The powerful carbon blank's incredible backbone is supported by the spiral wrap that distributes weight optimally throughout the blank – so you can focus on fighting the fish, not your gear. The durable Sea Guide® Heavy-Duty guides reduce line tangling while the reduced diameter of the Fight Control Foregrip keeps the line from touching your fingers, even under extreme stress.

FEATURES

- Carbon Blank
- Spiral Guides
- Incredible backbone
- Sea Guide ® Heavy-Duty Guides
- Detachable Butt
- Fight Control foregrip
- Performance Slick Butt
- Aluminum reel Seat
- Aluminum Gimbal

TROLLING

SODWANA

The Sodwana is developed to give the angler an excellent and well-built rod still at a very affordable price. The blank is soft but still very responsive under load. The Slick butt will prevent damage in the rod holder and make the rod stiffer in the lower part. A roller tip is used where the line has the most angle and stress, releasing pressure during an extended fight. Named after a famous spot in South Africa, Sodwana can travel the world over and help you land your dream fish.

FEATURES

- Super stiff blank action
- Incredible backbone
- Roller tip and heavy-duty guides
- Performance Slick Butt
- Aluminum reel seat
- Aluminum gimball

TROLLING

PELAMIS

The Pelamis range has been designed for the avid angler on a budget, has all the back-bone and blank action to land your fish quickly. The action is well balanced between enough softness to forgive an error but enough power to turn the head of the fish. Fully equipped with guides that require minimum maintenance and an aluminum reel seat and gimbal for strength. The lower line class are a bit longer to allow use of lighter lures whereas 50lbs and up are much more powerful and shorter to finish the fight quickly. From mackerel to bluefin tuna, you will find all the line classes to cover every situation.

FEATURES

- Super stiff blank action
- Incredible backbone
- Heavy duty guides
- Aluminum reel seat
- Aluminum gimball

TROLLING

REEF DONKEY

The Reef Donkey are made to withstand the most brutal fights. The action of the rod will allow you to control the fish with high drag settings and still allow some "room" when the fish approaches the boat. It's a fine balance between power and efficiency. Equipped with 2 roller guides where the line has the maximum stress under load. The anatomic grip is not only very comfortable during a long fight, it has a flat area on the front to help to apply the right pressure when you "thumb" the line. These details make the difference between a "good" and a "great" rod.

FEATURES

- Super stiff blank action
- Incredible backbone
- Roller tip and roller Butt
- Heavy duty guides
- Performance Slick Butt
- Aluminum reel seat
- Aluminum gimball
- Anatomic custom grip

BRAIDED LINE

X8 BRAID

Sufix x8 is a round, easy to handle and silky-smooth Japanese-style braided line. It has an 8-carrier construction of thin HMPE fibers making it a super strong, thin line with high abrasion-resistance and superb knot and shock strength.The R8 Precision Braiding technology with a high-tension weaving process gives this line its distinct supple and smooth qualities that have consistent diameter and quality plus an excellent strength to diameter ratio.The materials and construction mean that the line has low friction when passing through the rod guides. This results in silent performance and long, accurate casts.Sufix x8 is designed for both casting and spinning reels. It is a great option for smaller lures, light soft plastics (jigging), perch, trout, rainbow trout and finesse fishing.

FEATURES

- 8-carrier construction (thin HMPE fibers)
- R8 Precision Braiding technology
- Round and smooth braided line
- Excellent strength to diameter ratio

EGI X8

Developed for squid fishing, the Egi X8 is made with R8 Precision Braiding technology, resulting in a round line with a remarkable strength-to-diameter ratio. Consisting of 8 Dyneema® fibers for ultimate roundness, the braided Egi X8 offers long and accurate casts and high abrasion resistance.

NEW

FEATURES

- Built with 8 Fibers (Dyneema® Fibers)
- High Strength-to-Diameter Ratio
- Smooth & Silky Soft

BRAIDED LINE

91 BRAID

The Sufix 91 G-Core continues Sufix's range of braid lines with ultra-reliable performance when casting and fighting the fish. With an abrasion-resistant GORE® Performance Fiber in the core and 8 precision-braided UHMPE fibers surrounding it, the 91 G-Core's 9-carrier construction results in low stretch, better knot tying, and stronger holding power. The silky smooth 91 G-Core's super-slick coating allows for long casting distance and superior sinking ratio.

NEW

FEATURES

- Built with 9 Fibers (8 UHMPE Fibers + 1 GORE® Performance Fiber in Core)
- Superior Sinking Ratio & Roundness
- Super-Slick Coating
- Low-Stretch

BRAIDED LINE

131 G-CORE

Sufix 131 G-Core is the most reliable superline during casting, strikes and fighting action! It is built with 13 fibers (12 HMPE fibers + 1 GORE® Performance Fiber in core). A single strand of GORE® Performance Fiber is surrounded by 12 precision braided HMPE fibers. The construction has no weak points which leads to strength consistency.The GORE® Performance Fiber is the most abrasion resistant textile fiber. It is solid and round like a monofilament but has the same low stretch as the PE fibers. No more problems with gliding or knots opening! In addition, the 13-carrier construction increases the number of fibers at the knot resulting in better knot tying and stronger holding power.The structure of the Sufix 131 G-Core is much rounder than any other competitor's 12 or 16 carrier braid. The rounder line reduces the resistance in water (while retrieving) and the abrasion caused by rod guides and obstacles in the water. The core fiber (GORE® Performance Fiber) prevents the line from internal fraying making the line more durable.A rounder line casts farer, more silent and more accurate. The cancelled center hole does not allow water to enter – no water means lighter line and longer casting distances.The Sufix 131 G-Core is braided line that is great for casting and jigging, when you need a relatively thin line.

FEATURES

- Built with 13 fibers (12 HMPE fibers + 1 GORE® Performance Fiber in core)
- The most reliable superline
- Improved knot resistance
- Unmatched strength consistency and roundness

BRAIDED LINE

832 ADVANCED SUPERLINE®

NEW LENGTH

Sufix 832 Advanced Superline® is the strongest, most durable small diameter braid. It is built with 8 fibers (7 HMPE plus 1 GORE® Performance Fiber) and 32 weaves (pics) per inch. Due to its high-pitch count, it is also hydrophobic (water-repellent).The R8 Precision Braiding and fiber technology provide superior strength, roundness and line consistency. By adding GORE® Performance Fibers we improve abrasion resistance, increase casting length/accuracy and reduce line vibration. HMPE fibers provide the high strength and sensitivity, hydrophobic water-repellent protection and small diameter.All of this makes Sufix 832 Advanced Superline® 30x more abrasion-resistant than other braids.This line is great for casting, trolling and jigging, when high abrasion-resistance is needed. It is ideal for medium to large lures and brutal and intense casting techniques. Are you targeting zander, pike, perch or carp? Then you have to try this line out!

FEATURES

- The strongest, most durable small diameter braid
- R8 Precision Braiding and fiber technology provide superior strength, roundness and line consistency
- Constructed of 8 fibers (7 HMPE plus 1 GORE® Performance Fiber) and 32 weaves (pics) per inch.
- Gore® Performance Fibers improve abrasion resistance, increase casting length/accuracy & reduce line vibration
- HMPE fibers provide high strength & sensitivity, hydrophobic water-repellent protection & small diameter.

BRAIDED LINE

NANOBRAID®

• Strong and thin nanofilament braid • Sufix® NanoBraid® is built with a Wide Angle Braiding Technology that creates higher tension on the braiding process, resulting in a tight weave and super strong, silky smooth line. • The densely braided HMPE fibers and a high pitch-count - up to twice as high as on most braided lines - gives consistent quality, uniform diameter and increased abrasion resistance, improving the line's performance. • Sufix® NanoBraid® is up to three times stronger than other lines in the category and also features superior knot and shock strength unmatched by any other ultra thin line. The silky soft line is extremely sensitive and runs quietly through the guides.

BRAIDED LINE

MATRIX PRO

A unique, high performance braid with all of the qualities that anglers search for: high strength, ease in handling, near zero stretch and easy casting. Our special matrix braiding process creates a rounder line which performs much better than traditional flat braids. A rounder braid makes your casts smoother, therefore enhancing your casting accuracy and distance. Made with 100% HMPE fibers to ensure that your line achieves the highest strength to diameter ratio while offering high sensitivity and quick hook-sets. Matrix Pro features a PE WaxShield that offers incredible toughness and abrasion resistance.

FLUOROCARBON

FLUOROCARBON

INVISILINE®

Invisiline is a leader material made from 100% fluorocarbon that offers incredible abrasion resistance and shock absorption. Due to its light refraction properties it is virtually invisible in water and sinks four times faster than standard nylon line. Invisline has incredibly low stretch and is highly durable making it the perfect choice for the most demanding fishing situations.

FLUOROCARBON

SUPER 21® FC

• 100% fluorocarbon line is virtually invisible in the water and is ideal for stealthy presentations. Low stretch index improves line control, presentation and bite detection, and optimizes hook setting power. Extremely abrasion resistant and durable for fishing rough structure and for tough-mouthed fish, yet supple enough for subtle presentations. Fluorocarbon line sinks four times faster than traditional nylon lines allowing the presentation to sink to the strike zone faster. 100% fluorocarbon line that casts like a regular monofilament and offers exceptional handling on spinning & casting reels. Invisible • Low Stretch • Super Strong • Fast sinking • Easy Handling

MONOFILAMENTS

MONOFILAMENT LINE

RECYCLINE

100% premium recycled monofilament: The first monofilament of its kind steps towards a sustainable existence by using 100% Econyl®, regenerated nylon coming from waste such as fishing nets from the oceans and from the fishing industry. Recycled plastic spool: The spool is made of fully recycled plastic and can be recycled again. Recycled paper board package: Construction with recycled paperboard allows this carton to be recycled again and again, critical in the future of our resources and environment.

MONOFILAMENT LINE

ADVANCE

• The most abrasion resistant, supple and sensitive monofilament. HMPE molecules blended in with the polyamides are drawn to the line's surface in the Sufix's proprietary Magnetic Extrusion Process, creating a durable layer that provides superior, long-lasting protection against abrasion. • Unlike other abrasion resistant lines, Sufix Advance is very supple and sensitive, allowing subtle and precision presentations. • With only half the stretch of a standard monofilament line, Sufix Advance offers exceptional lure control, ultimate bite detection and firm hook setting power. • Thanks to the line's inherent qualities and the Sufix G2 Precision Winding, Sufix Advance is virtually memory free, extremely easy handling and long casting. • G2 Precision Winding in all spool sizes.

MONOFILAMENT LINE

XL STRONG

An exceptionally soft, smooth and supple fishing line with great tensile and knot strength. XL Strong is a very versatile monofilament fishing line that is perfect for a wide variety of fresh and salt water fishing applications. This smooth line is exceptional for casting by offering a low memory, reduced twisting, less kinks and fewer backlashes than stiffer monofilaments. Made with a super copolymer nylon formula, XL Strong offers increased toughness and excellent abrasion resistance. This low stretch nylon provides quick and controlled hook sets with high shock strength that helps you land more fish.

MONOFILAMENT LINE

NANOLINE

Sufix® Nanoline is designed for ultra-light trout area finesse fishing with featherweight lures. Special low stretch formula creates a super-sensitive line that transmits even the slightest movement and lightest of bites to the fisherman's hands, resulting in fast hooksets, greatly improving your hook-up ratio. Ideal for very slow retrieves and delicate presentations with featherlight lures, especially in the most demanding high-pressure conditions, when nothing less than perfect will do. Sufix Nanoline has built-in anti-icing properties that allow fishing even in sub-zero temperatures without compromising the line's softness and low stretch qualities.

PROFESSIONAL FISHING LINE

Professional: • Perfect for trolling. • 5 x 100 m recommended for professional anglers • 1kg spool to cover all saltwater fishing technique with different diameters. • Good abrasion resistance. Hand-Caster: • Monofilament 100% copolymer. Exceptional traction and knot resistance, and high abrasion resistance. • With reduced elasticity, it provides an excellent response to the bite, but still retains "dampening" qualities during crucial fighting moments when the fish is approaching the rod.

SUPERIOR LEADER

Superior Leader is a state-of-the-art 100% copolymer monofilament. It offers outstanding linear strength, knot strength and high abrasion resistance. A subtle amount of stretch allows for excellent setting of hooks, but still enough to act as a 'shock absorber' during those crucial moments of the fight when the fish is under the rod tip.

BIG GAME

TOP SHOT PRO®

The Sufix® Top Shot is a braided line designed and built for fishing of bluefin tuna drifting with rods in a spiral guide. This is one highly appreciated technique and the parameters of reference are now standardized. In Sufix we have therefore thought to offer a braided line optimized for the more of reel sizes used in this technique (20/25 / 30lb according to the brands of reels). The Top Shot braid, as well as being created with the best materials available, was made multicolor with color change every ten meters in order to facilitate the fisherman on positioning the rods at the correct depth... just need to count the colors!

AT STORM, WE'RE SERIOUS ABOUT FISHING

Non-fishermen might even see us as obsessive. We believe in getting into the head of a fish to really understand what's going on... like what makes a fish bite. We build our lures based on those findings because we know that you're serious about fishing too. So get out there and do what you need to do to find them & catch them.

CASTING

BISCAY SANDEEL

Built to imitate a prominent saltwater prey, Biscay Sandeel features a long, slender body and a perfectly matched head with a fixed hook. An additional chin eyelet gives the option of adding an assist hook or blade. This weighted head & body combination allows you to cast further in windy coastal conditions, and fish faster in rough water or when an aggressive presentation is needed. The subtle paddle tail kicks with a life-like action and incredible vibration, even at slow speeds. Both body sizes are available in two options; lighter head for cast and retrieve techniques and a heavier head option designed for vertical jigging even in strong currents. Every Biscay Sandeel is extremely visually detailed with each body perfectly color matched to its own jig head. Rigged with a heavy duty VMC® hook. Head includes eyelet to add optional stinger hook.

CASTING

BISCAY MINNOW

Not for the faint of heart, the Biscay Minnow casts long and fishes fast. With its aerodynamic design, this bait was born to face the rough winds and waters of the coast. The Biscay Minnow's subtle paddle tail kicks with a lively action and incredible vibration – even in slow presentations. And when in need of an extra edge, a hook or blade can be attached to the eyelet on the jig head.

FEATURES

- VMC Coastal Black® hook with keel weight.

CASTING

BISCAY DEEP MINNOW

Scan the coastal depths with the Biscay Minnow Deep. Designed for deep sea jigging, this bait drops deep and swims with vibration and life-like kick. To make sure the predators won't know the difference, the Biscay Minnow Deep comes in 15 color finishes. The jig head comes with an eyelet for an optional stinger hook.

FEATURES

- VMC Coastal Black® hook with keel weight.

BISCAY SHAD

Life-like from the moment it hits the water, the Biscay Shad is a showcase of imitation. With its articulated body and head, the bait swims with a realistic action – all the while keeping the VMC hook neatly hidden in the bait's weedless system. When attacked, the Biscay Shad's body collapses, exposing the large hook gap for a clean hook up. The bait's weighted head-and-body combination allows for long casts and aggressive presentations, making the Biscay Shad the perfect for windy coasts and rough waters.

CASTING

BISCAY DEEP SHAD

Always rolling in the deep, the Biscay Shad Deep is your new favorite deep diver. The bait's composition results in an enticing show as it drops, while the weedless design makes snagging a thing of the past. The life-like action is complemented by the extremely detailed design of the bait, with each body perfectly color-matched to its jig head. Optimal for deep sea jigging, the Biscay Shad Deep takes you right where the predators of the deep lurk.

CASTING

HIT SHAD

Built with super-soft body for extremely responsive action, Hit Shad features dual-injected and highly detailed, printed patterns designed specifically for the European zander and freshwater predator fishing. Hit Shad has a slow body roll and exaggerated tail swing. This shad profile bait can be customized by cutting or removing the “tail tendon” for a wider tail action. Swims on both retrieve and free fall. Feature belly and back slots for easy rigging and maximizing hook gap.

FEATURES

- Extremely responsive action
- Adjustable tail for super-slow presentations
- Dual-injected and digitally printed color patterns
- Life-like presentation

CASTING

BOOM SHAD

As you might guess, this bait packs a lot of boom. The Boom Shad's pronounced body, slender wrist and wide paddle tail produce a rolling action with a lot of belly flash, even at low speeds. Combine this with a presentation that imitates a wounded fish on the run, and the results are irresistible. The bait's larger sizes (7" and 9") are ideal for pike angling, whereas the smaller sizes (3" and 4") are great for targeting perch and European zander. The Boom Shad is finished with a realistic design, making it the predator anglers' dream.

FEATURES

- Big Paddle Tail Action
- Dual Injected Colors
- Designed for European Predator Species
- Smelt Scent For Added Attraction

CASTING

GO-TO GRUB

When the bite gets finicky, it is time to call in the specialist. The Go-To Grub is a secret weapon for catching zander and perch in the cold waters of the North. Appealing to freshwater predators, this bait's swim presents a light vibration pattern – thanks to its long and thin curly tail. Finished with dual-injected colors, the Go-To Grub is an offer the fish simply can't refuse.

FEATURES

- Ribbed Body for Added Vibration
- Oversized Tail for Extra Attraction
- Designed for European Perch & Zander
- Dual-Injected Colors

JOINTED MINNOW

Who said less is more? The Jointed Minnow boasts a multi-segmented body with an added body roll that results in a realistic, yet lively and hard-kicking action. To guarantee easy presentation, this bait has a near neutral buoyance and balance. Keeping up with the down-sizing trend, the Jointed Minnow's two sizes (2,5" and 3,5") effortlessly cover the needs of perch and European zander anglers.

FEATURES

- Multi-Segmented Body
- Kicking Action With Added Body Roll
- Designed for European perch and zander
- Smelt Scent for Added Attraction

CASTING

SLOP HOPPER

A well-proven body shape – combined with a versatile action – makes the Slop Hopper an easy favorite for dropshot fishing. When sinking, this soft bait presents a horizontal sinking action with a slow flutter. As the Slop Hopper is retrieved, its wildly thumping and flailing tail gives off a tantalizing rolling action. Working best when rigged with minimal weight, Slop Hopper can be used with various dropshot and jig head presentations. The bait is finished with dual-injected colors, giving it a superb, natural profile.

FEATURES

- Proven body shape
- Horizontal sinking action with a slow flutter
- Dual-injected colors
- Ideal for dropshot & jig head presentations

SUDAK MINNOW

Life-like definition, natural action and immaculate details – this one's for the perfectionists. The extremely versatile Sudak Minnow comes with a small boot and a tail section so slim that kicking action is guaranteed – no matter the speed of the retrieve. The bait is fitted with subtle body roll and a propeller-like tail that result in a harmonized action. Finished with smelt scent, 3D eyes and double-injected colors, the Sudak Minnow is the ideal candidate for clear water situations.

FEATURES

- Propeller-like Tail Action
- Subtle Body Roll
- 3D Eyes
- Dual-Injected Colors
- Smelt Scent for Added Attraction

CASTING

ARASHI GLIDE

Swims with extremely stable action to easily create different actions with multiple retrieve methods. Slow sinking creates a longer glide while giving angler increased control of swimming depth, keeping lure from rapidly dropping out of the strike zone. Swiveling hooks increase catch ratio by eliminating a fish's leverage against lure body during the fight. Premium colors and patterns with attractor options that are unmatched in drawing a strike by arousing the aggression response. Spare tail included.

CASTING & VERTICAL

GOMOKU TRICK METAL

The Gomoku Trick Metal is a highly versatile jigging lure that features a wide tail kicking action. The asymmetric body design gives it a tricky action on the fall which triggers those hungry predators to bite! The Gomoku Trick Metal is rear weighted for long casts and a fast descent. Rigged with VMC® dressed assist hook & rear treble hook.

FEATURES

- Full Metal Body Sinking Multi-Species VMC® Dressed Assist Hook and Rear Treble Hook

VERTICAL JIGGING

GOMOKU KENSAKI

The asymmetrical Gomoku Kensaki cuts water fast with its knife-tip design, allowing it to get deep. The inline eyelets stabilize the jig during descent, and enhance the fluttering action under slack line. Use a 'lift & fall' slow-pitch technique to get the Gomoku Kensaki darting aggressively upwards during the lift, followed by a very tight horizontal flutter on the fall

FEATURES

- Equipped with two VMC assist hooks
- Sinking

WILDEYE® SUNGLASSES

The WildEye® lenses are built of several layers offering excellent resistance to scratches and different surface treatments. At 1.1mm thick, they offer 99% polarization and 100% protection against UVA / UVB (CAT 3), while reducing dazzle and reflections. TAC or cellulose triacetate is one of the best materials in terms of light transmission and optical stability. That is why it is the most popular material to manufacture polarized lenses.

FEATURES

- 100% UV / UVB CAT 3 protection
- Scratch resistant coating
- Light intensity control layer
- Polarized layer that reduces dazzle
- Contrast enhancement filter
- Lightweight, impact resistant polycarbonate frame
- Basic curves from 2 to 8 for optimal protection. (Dorado: 2 / Seabass: 6 / Wahoo: 6 / Biscay: 8)

GOMOKU VANUATU

These 3 series of boat rods are so versatile that you can use them for various vertical fishing techniques like inchiku, medium jigging, or light jigging. The use of VTX45 Carbon Technology in the hands of our designers gave birth to real bestsellers as these are in fact already among the most popular rods for modern vertical techniques in Southeast Asia. And that's where these vertical techniques were born. The 3 rods are very modern and sensitive, very light and very well balanced. It is possible to fish them comfortably for hours. They will ensure you a very good control of the lures, and a great reserve of power for fights. Fun is guaranteed!

DISCOVERY

From the novice to the experienced angler, at Storm, we designed the Storm Discovery Series with you in mind. Fast action, easy casting, sensitive and durable, sets these lure fishing casting rods apart with a price point that is irresistible. Crafted on mid modulus carbon blanks with varying actions to suit certain applications, you will be sure to find one that suits your need. If you love chasing game fish on ultralight, medium or heavy, we have you covered. Colours and components are brown, gold and blacks with a touch of silver glitter for that wow factor that breaks away from the basic looks of an entry level rod. In edition, we fitted out all models using full Fuji reel seats and guides for reliability and durability. All models come in a 2 piece configuration and a fitted rod bag for ease of travel. With models ranging from 6' to 7'3" there will definitely be a rod that you would love to own. With the new Storm Discovery rods, you will discover the impossible.

GOMOKU BELIZE

These 3 series of boat rods are so versatile that you can use them for various vertical fishing techniques like inchiku, medium jigging, or light jigging. The use of VTX45 Carbon Technology in the hands of our designers gave birth to real bestsellers as these are in fact already among the most popular rods for modern vertical techniques in Southeast Asia. And that's where these vertical techniques were born. The 3 rods are very modern and sensitive, very light and very well balanced. It is possible to fish them comfortably for hours. They will ensure you a very good control of the lures, and a great reserve of power for fights. Fun is guaranteed!

MICRO JIGGER

Revamped and upgraded with TORAYCA® carbon blanks, these rods will excite even the most discerning angler. The Storm Micro Jigger is greater in sensitivity, lightness, recoil and durability making it an excellent performer in micro jigging. Designed with a minimalist approach, all components are designed to be light and small, allowing the angler to feel the entire blank while micro jigging. Fitted with Fuji reel seats and Fuji Fazlite guides, weight is decreased and overall performance increased with durability and reliability. The New Storm Micro Jigger is definitely a great addition for anyone wanting to excel at micro jigging.

MJS631L

Product Number	Rod Power	Rod Length	Number Of Sections	Casting Weight	Features	Number of Guides	Barcode
MJS631L	L	6'/ 190cm	1	Max 30 g	PE 0,4 - 1	7+1	039984152764

TENACIOUS DOCAN

Designed to fish snapper ball from 60-200g effectively, the Storm Tenacious is the perfect rod to work snapper balls with ease. Having a supple white tip allows the fish to bite the snapper ball without feeling resistance yet allowing the angler to detect the subtle takes through the sensitive blank and highly visible fluroescent pink bindings. When needed to set hook, the re-enforced cross wrapped handle and butt section immediately takes over with butt power and speed. Rated PE 0.8-2, the high durability cushioning blank VTX45 allows you to fish light to medium PE lines without fear of line breakage. Spiral guide configuration reduces blank twist and line wrap on the guides. Fitted with full Fuji components, Storm Tenacious gives any angler with tenacity the technical advantage to land the big ones!

FEATURES

- For Docan fishing 60 to 200g
- Fuji guides
- Fuji reel seat
- VTX 45 carbon Technology
- Ultra sensitive

150 Employees

Treble hook world leader

Founded in 1910

Exported to more than 90 countries

Entreprise du Patrimoine Vivant
A Living Heritage Company - France

The Henokiens
Association bicentenar of family and bicentenary companies

Passionate anglers, with more than 100 years of experience in the manufacturing and marketing of fish hooks, we are committed to keeping on innovating to offer you constantly improved fish catching quality products while developing them in a more and more sustainable way. Being socially and environmentally responsible has always been at the heart of the VMC project. This is self-explanatory when we project the life of our factory over several centuries.

Our planet is beautiful and rich in natural resources including rivers, lakes, seas and oceans. This environment is under pressure from all sides and deteriorating. We fishermen, wardens of our aquatic environments, are aware of this. To meet this challenge, VMC is committed to limiting its impact on the planet and to support responsible fishermen who preserve our environment.

We work every day to reduce our greenhouse gas emissions. We substitute harmful products with greener alternatives. We are reducing our water consumption and our industrial waste. We have developed eco-responsible packaging. We always want to do better than the standards that are imposed on us as a manufacturer in the European Union. We also collaborate as much as possible with local companies for our various projects.

Our social commitment is just as important. We are proud of the average seniority of our employees, which is almost 15 years, and of having many employees whose families have contributed to the development of our factory for several generations, thus testifying to their attachment to the industrial adventure of VMC. This is the strength and expertise of VMC.

Much remains to be done to reduce our environmental impact and strengthen our social commitment. You have to be humble and move forward step by step. You can count on our determination.

The 2022/2023 season looks promising for VMC, with ever more technical, innovative products that meet the needs of anglers looking for excellence.

The whole VMC team wishes you a great season, tight lines and with good times on the water.

Cyrille Viellard

CEO of VMC Pêche

| VMC® POINTS |

NEEDLE SHARP™

VMC® Needle Sharp™ is the very latest in premium point technology from VMC®, the result of a unique point-grinding process, chemically sharpened to perfection.

SPARK POINT®

Developed exclusively by VMC® for ultimate performance hooks. A premium point hardened by forming, followed by chemical sharpening ensures permanent hook sharpness. Front and back reinforcement ribs guarantee the point's rigidity. Energy channels increase the speed of penetration and optimise the point's driving force upon striking.

NEEDLE CONE

The result of a sharpening technique that gathers the metal fibers and squeezes them toward the center of the point. By compressing rather than cutting, VMC® has created a point equal or superior in sharpness to the best available and incredibly stronger.

CONE CUT®

The point that combines sharpness, structural stability and quality thanks to a conical tip, a triangular crest and a barb so fine that it assures, without force, a clean and perfect penetration beyond the barb.

CUTE POINT

The traditional hook point with excellent penetration capacity. This standard hook point is the most widely manufactured in the world. All VMC® hooks beginning with the number "9" have a standard Cut Point, unless otherwise indicated.

DYNACUT™ POINT

Developed for Big Game Fishing The geometry of the Dynacut point allows the hook to easily penetrate the hardest part of the jaw of Big Game species such as marlin, shark and giant tuna, instantly providing a perfect setting of the hook for a safe and clean fight.

| VMC® STEEL |

HI-CARBON STEEL

Carbon stabilizes iron during temperature changes. The higher the level of carbon, the stronger the steel. VMC® uses premium-quality high carbon steel to give a thinner hook the highest quality point and durability.

VANADIUM® STEEL

VMC® Vanadium® hooks owe their success to their lightness allied with their incredible resistance : up to 25 % increased strength. VMC® Vanadium® steel is perfect for any finesse-style hooks that require instant penetration.

STAINLESS STEEL

Reserved for special professional and premium sport hook series, stainless steel is perfect for deep sea fishing, salmon and big fish. Ultimate corrosion resistance requiring no further coating.

| VMC® COATING |

An optimum level of corrosion resistance exists for each individual fishing application. You can depend on VMC® coatings to preserve the unique sharpness, strength, shape and finish of our hooks for as long as you need them to last. The wide range of VMC® coatings offers an efficient solution adapted to every fishing condition.

FRESHWATER

- BK - BLACK
- BL - BLUE
- BZ - BRONZE
- NT - P.T.F.E.

These coloured hooks receive a thin layer of unique varnish that covers the hook without affecting the sharpness of its point. The varnish creates a shield on Hi-Carbon and Vanadium® steel by covering the entire hook surface.When fishing in freshwater, these VMC® coatings will preserve hook sharpness, strength and appearance to the highest possible level.

Tin and Tin Red coatings are highly recommended for all saltwater fishing applications, particularly those involving intense friction such as trolling or when in direct contact with stainless steel.

SALTWATER

- BN - BLACK NICKEL
- GO - GOLD
- NI - NICKEL
- RD - RED

The perfect balance between coating thickness and point sharpness, to ensure optimum hook performance and resistance against corrosion.

Coating PTFE

Smooth P.T.F.E. coating is now available on a number of VMC® premium models. This technical coating improves hook discretion and increases penetration speed by 50 %.

EXTREME CONDITIONS

- CB - COASTAL BLACK
- TI - TIN
- TR - TIN RED
- CT - COASTAL PTFE

The Coastal PTFE coating (CT) is 5 times more corrosion resistant than a PTFE. It increases the penetration speed by 50% compare to a classic black nickel coating.This exclusive technology is the result of 3 years intensive researches at the VMC factory in France. The new Coastal Black finish, unique to VMC®, is the ultimate combination of an innovative coating for extreme corrosion resistance and a premium hook finishing process for maximum sharpness.

COASTAL BLACK

SALTWATER FINISH
see more details in Livebait part

- PS - PERMASTEEL®

1000+ HOURS !

The original anti-corrosion coating by excellence, exclusive to VMC®.

The Permasteel® secret formula creates a 100 % protective shield for even the most vulnerable areas of the hook, whilst maintaining ultimate point sharpness.

VMC® Permasteel® prevents signs of corrosion in saltwater for over 1000 hours.

7232 REDENTEX FRONT

Needle Sharp™ | Vanadium® Steel | Forged | Technical Locking Curve | Resin Closed Eye™

SHARPNESS ■■■■■ STRENGTH ■■■■■
CORROSION ■■■■■
COASTAL PTFE CT ■■■■■

| The series developed and designed for slow trolling live bait techniques: Stewart Rig. | Coastal PTFE® coating: 50% increased speed penetration and 5 times more corrosion resistant than a standard PTFE! | Resin Closed Eye™ to avoid leader abrasion during the fight. | 45° Eye rotation for perfect nose hooking. The hook slides on the leader according to the size of the bait. | Incredible new SuperLong Needle Sharp™ for ultimattee penetration. The Technical Locking curve shape locks the fish in place once you have set the hook.

BLUE FOX TAKES PRIDE IN PREMIUM COMPONENTS AND SKILLED PRODUCTION TO ENSURE THAT YOUR FISHING STORIES CAN ALWAYS HAVE A HAPPY ENDING.

CASTING

VIBRAX® ORIGINAL

The legendary Vibrax® has laid a foundation for a vast collection of spinners from Blue Fox for today's angling styles. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Available in raw brass, silver or copper plated, painted & printed finishes
- Fitted with VMC® hook

CASTING

VIBRAX® FLUORESCENT

The legendary Vibrax® has laid a foundation for a vast collection of spinners from Blue Fox for today's angling styles. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Available in raw brass, silver or copper plated, painted & printed finishes
- Fitted with VMC® hook

CASTING

VIBRAX® FLAKE

The legendary Vibrax® has laid a foundation for a vast collection of spinners from Blue Fox for today's angling styles. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Available in raw brass, silver or copper plated, painted & printed finishes
- Fitted with VMC® hook

NEW COLORS

Bring the night sky down into your tackle box with our Northern Lights Vibrax® series, modeled from the Vibrax® Original which has laid the foundation for a vast collection of spinners from Blue Fox for today's angling styles. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Northern lights imitation patterns with high quality finishes
- Fitted with VMC® hook

CASTING

VIBRAX® LONGCAST

Weighing in at 30% more than the popular Vibrax® Original, the Vibrax® Long Cast is designed to get you closer to far away fish. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 30% heavier than Vibrax® Original
- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Heavy-duty stainless steel shaft
- Available in a variety of color combinations
- Fitted with VMC® hook

CASTING

MINNOW SUPER VIBRAX®

This long-casting spinner has been designed with a natural baitfish profile in place of a traditional spinner body. When retrieved, the blade spins and flashes in front of the vibrating lure body to catch the attention of any nearby predator fish. The elongated aerodynamic design cuts through air and water with ease, ensuring each cast reaches its maximum potential distance.

FEATURES

- Vibrating body imitates a lively baitfish
- Blade spins and flashes, even on descent
- Long-casting design
- Fitted with VMC® hook

CASTING

VIBRAX® CHASER

Create the illusion of a small baitfish being chased down by a slightly larger baitfish with the Vibrax® Chaser. The soft trailer "chases" the main body and blade imitating a hungry, distracted baitfish, creating intense flash and commotion to nearby predators. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Soft-touch baitfish trailer
- Available in a variety of color combinations
- Fitted with VMC® hooks

CASTING

VIBRAX® FOXTAIL

What do you get when you take some of the best performing Vibrax® color patterns, and spice them up with a fluffy tail? The Vibrax® Foxtail of course! The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Available in glow finishes with painted metal blade patterns
- Fitted with VMC® hook featuring teaser tail

ELASTIC LINE SPOOL

This elastic thread has a great resistance, it can be used to hold bait in place on the hook, avoiding detachment from the hook when casting & hitting the water. It also prevents small fish from taking the bait off the hook.

FEATURES

- 200m spool
- PVC protector to prevent staining
- Invisible and very fine thread
- Great resistance and elasticity
- Presentation in boxes of 5 units

RED = New 2023

Puukko, the Nordic knife, has traditionally been the most important survival tool in the harsh Arctic environment. It was the one go-to tool everyone carried and it was used for making firewood and kindling, for hunting and fishing, for cleaning the catch – be it fish or game – for cooking and eating, and at the most extreme situations, the knife could be used to defend oneself from the dangers nature had.

No one left home without a knife and everybody learned how to efficiently use one already at young age. There were – and still are – different knives for different users, all matched to the needs and capabilities of the user. And for festive occasions there were decorated knives that could be used as functional accessories for the clothing.

The Marttiini story began in 1928 at the land of dark Arctic winters and the summer midnight sun, when blacksmith Janne Marttiini decided to establish a knife factory to Rovaniemi in Finnish Lapland.

With the user in mind, he began to create beautiful, high quality knives to be used in the harshest conditions imaginable – knives for people that used them every day and whose life could even depend on the knife.

But don't let the knife's beauty fool you. The moment you put one to a test, you'll be convinced it is the perfect tool for your need. You feel the sensation of natural materials like leather, curly birch, reindeer antler, and of course the ultra sharp blade always made from finest steel.

Today Marttiini knives are a combination of generations of craftsmanship heritage and modern technology that create knives that are not only sharp, but also perfectly represent the beauty and toughness of the North. They're called ”puukko” – the Nordic knife.

Marttiini

AAPA

The bold Aapa knife embodies the harsh atmosphere of the Finnish swamp landscape. The model combines the typical characteristics of two strong traditional knives: the blade of a classic Lapp knife and the handle of a Lynx knife. The blade is made of forged carbon steel. The handle is an earthy mix of curly birch waxed in a tar tone and reindeer antler bone. The new sheath type has a wider holster.

FEATURES

- Blade length: 11 cm
- Overall length: 23 cm
- Weight: 176 g
- Blade: Carbon steel 80CrV2, HRC 59.5
- Handle: colour-waxed curly birch, reindeer antler bone, protective oil
- Sheath: leather, black

TUNDRA CB

The Tundra is a full-blooded bushcraft all-round knife for the demanding user. This bushcraft knife is designed for heavy-duty use. Made of of high-strength stainless steel, the full tang structure and robust blade provide excellent durability. The blade and the full tang are 3.5 mm thick. On this knife, traditional materials go hand in hand with modern design. The handle is made of Finnish curly birch. The red details on the handle and leather sheath seal the dynamic look. The Tundra knife is available with two handle options: deadwood-like, gray-waxed curly birch (Tundra GR) and natural-colored, waxed curly birch (Tundra CB). The surface of the waxed wood and the design of the handle ensure a firm grip. The sturdy leather sheath is reinforced with rivets. If needed, the knife handle parts can be re-tightened. The screw has a Torx T10 head.

FEATURES

- Blade length: 11 cm
